Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee, as the result of proposal for revision of Japanese Industrial Standard submitted by Japan Kraft Paper Sacks Industrial Association (JKPSA)/Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14. Consequently **JIS Z 1509** : 1998 is replaced with this Standard.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.

Date of Establishment: 1954-08-18

Date of Revision: 2004-02-20

Date of Public Notice in Official Gazette: 2004-02-20

Kraft paper sacks—For potato starch

1 Scope This Japanese Industrial Standard specifies the kraft paper sacks used for packing potato starch (hereafter referred to as "paper sacks").

2 Normative references The following standards contain provisions which, through reference in this Standard, constitute provisions of this Standard. If the indication of the year of publication is given to these referred standards, only the edition of the indicated year constitutes the provision of this Standard but the revision and amendment made thereafter do not apply. The normative references without the indication of the year of coming into effect apply only to the most recent edition (including amendments).

JIS L 1095 *Testing methods for spun yarn*

JIS L 2512 *Vinylon sewing thread*

JIS L 2513 *Polynosic sewing thread*

JIS P 0001 *Paper, board and pulp—Vocabulary*

JIS P 3401 *Kraft papers*

JIS Z 0102 *Vocabulary for kraft paper sacks*

Remarks : **ISO 6590-1** : 1983 *Packaging—Sacks—Vocabulary and types—Part 1 : Paper sacks* is equivalent to the said standard.

JIS Z 0215 *Testing method of stitch strength for sewn kraft paper sacks*

JIS Z 1531-1 *Kraft paper sacks—Description and method of measurement*

Remarks : **ISO 6591-1** : 1984 *Packaging—Sacks—Description and method of measurement—Part 1 : Empty paper sacks* is equivalent to the said standard.

JIS Z 1531-2 *Kraft paper sacks—Dimensional tolerances for general purpose sacks*

Remarks : **ISO 8367-1** : 1993 *Packaging—Dimensional tolerances for general purpose sacks—Part 1 : Paper sacks* is equivalent to the said standard.

JIS Z 1532 *Kraft paper sacks—Testing method for bottom pasting strength*

3 Definitions For the purpose of this Standard, the definitions given in **JIS P 0001** and **JIS Z 0102** apply.

4 Classification of paper sacks The paper sacks are classified into pasted kraft paper sacks (hereafter referred to as "pasted sack") and sewn kraft paper sacks (hereafter referred to as "sewn sack") according to the closure of tube, there divided to valved and open-mouth type according to the form of the filling mouth and grouped further by the construction of tube (shape of the end, with or without a notch at upper end corner and with or without gusset) and the construction of upper and lower ends of the paper sacks. The classes and symbols of the paper sacks are as given in table 1.

The filling mass of the paper sacks shall be 25 kg in any times.
