AMCA Publications

Authority

This publication was approved by the AMCA International membership on 13 February 2005, and became effective on 1 March 2005. It is not the intent of the committee to require currently licensed product line catalogs to be changed based on the editorial changes made in this revision. New catalogs and catalogs in their normal cycle of product line catalog revision will be required to update.

The May 2007 revision was approved by the AMCA International membership on 6 May 2007, and became effective on 1 June, 2007. This revision introduces a new sone rating called spherical sones, differentiating from the traditional sone rating (now referred to as hemispherical sones), and adds Annex B to provide the method of calculating and presenting spherical sones.

The July 2009 revision was approved by the AMCA membership on 25 July 2009, and became effective on 1 August 2009. This revision introduces Annex C, which adds requirements for certifying sound performance of air curtain units.

The October 2010 revision was approved by the AMCA membership on 14 October 2010.
