Standards Briefing Note

Reference No	Withdrawal of Permanent Way Special Instructions (PWSI)	**Issue No**	**Publication Date** February 2007
Title	PWSI 7 – Installation of P-Way Components - Correct use of Tools PWSI 9 - Instructon on the Management of Lineside Vegetation in Rear of Signals PWSI 10 - Leave Site Safe and Secure Campaign		
Standard Owner	Head of Track Engineering	**Compliance Date**	February 2007
Local Compliance Owner	Track Maintenance Engineer Territory Produnction Manager MP&I (Track Renewals) Territory Off Track Engineers		

Purpose

Permanent Way Special Instructions (PWSI) were issued by the Head of Track Engineering to give instruction on urgent issues pending standards change however with the introduction of the new Network Rail standards framework there is no provision for them.

Scope

What's New/Changed

PWSI 7 contains general good advice which will appear in the Track Work Instructions when they are issued. The only requirements are given in clause 5 and all this information in now included in NR/SP/TRK/102 'Track Construction Standards' section 4 'Rail Fastenings'.

All the requirements of PWSI 9 have been moved to NR/SP/TRK/05201 'Management of Lineside Vegetation'

The material in PWSI 10 section 2 'Actions Required – Access' is now included in safety documentation and training (e.g. PTS training) and is not specific to track engineering. The specific requirements given in section 3 'Actions Required – Materials' have all been moved to NR/SP/T.
RK/102 'Track Construction Standards', section 14 'Securing of Materials'.

These 3 remaining PWSIs are therefore withdrawn

Affected Documents: (impact)

List Standards to be withdrawn / superseded, or requiring major change

Standard Reference	Impact
PWSI 7	Withdrawn
PWSI 9	Withdrawn
PWSI 10	Withdrawn There will be no impact as the measures have all transferred to other standards

Applicability
Provisions of this document require the attention of and action from

- Ops & Customer Service ☑
- Safety & Compliance -All ☐
  - Occupational H & S ☐
- Network Development ☐
- National Delivery Service ☐
- MP & I ☑
- Engineering -All ☐
  - Business Engineering ☐
  - Civil ☐
  - E&P ☐
  - Enhancement Eng ☐
  - Environment ☑
  - Ergonomics ☐
  - Fire Safety ☐
  - Ops Principles & Stds ☐
  - Railway Systems ☐
  - Rail Vehicle ☐
  - Signalling ☐
  - Telecommunications ☐
  - Track ☑
- Maintenance ☑
- *Hard copy for Libraries* ☐
- Commercial Property ☐
- Contracts & Procurement ☐
- Strategic Change ☐
