# National foreword

This British Standard has been prepared under the direction of the Technical Sector Board for Building and Civil Engineering and is the English language version of EN 324-1:1993, *Wood-based panels — Determination of dimensions of boards — Part 1: Determination of thickness, width and length.*

EN 324-1 was produced as a result of international discussion in which the UK took an active part.

The principle of the method is technically equivalent to **A.2.1** to **A.2.4.2** and **A.2.7** to **A.2.8** of BS 1142:1989 *Specification for fibre building boards;* to **7.1.1** to **7.2.5** of BS 5669-1:1989, *Particleboard — Part 1 Methods of sampling, conditioning and test;* and to **A.2** to **A.2.4** and **A.3**, **A.4.1**, **A.4.4**, **A.5** and **A.6** of BS 6566-4:1985, *Plywood — Part 4 Specification for tolerances on the dimensions of plywood panels,* which will be withdrawn in due course.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

**Summary of pages**
