National foreword

This British Standard has been prepared by Technical Committee B/541 and is the English language version of EN 636-3 : 1996 *Plywood — Specifications — Part 3: Requirements for plywood for use in exterior conditions*, published by the European Committee for Standardization (CEN).

EN 636-3 was produced as a result of international discussions in which the United Kingdom took an active part.

BS EN 636-1, BS EN 636-2 and BS EN 636-3 contain requirements which have no direct relationship with those in BS 6566 : Parts 4, 7 and 8 : 1985. Parts 1 to 8 inclusive of BS 6566 will be withdrawn in accordance with CEN provisions within six months of completion of the full package of European Standards covering plywood and related test methods. These standards are:
