Foreword

This Subsection of BS 6200 has been prepared under the direction of the Iron and Steel Standards Committee. It supersedes method 1 for the determination of copper in BSI Handbook No. 19, to which it is technically equivalent.

BS 6200 is a multipart British Standard covering all aspects of the sampling and analysis of iron, steel and other ferrous metals. A list of contents, together with general information, will be given in Part 1 to be published in due course.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
