National foreword

This British Standard has been prepared under the direction of the Automobile Standards Committee. It is identical with ISO 1102:1986 "*Commercial road vehicles — Mechanical connections between towing vehicles and trailers — 50 mm drawbar coupling*", published by the International Organization for Standardization (ISO).

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words "International Standard" appear referring to this standard, they should be read as "British Standard".

Cross-references

International Standard	Corresponding British Standard
ISO 3584:1975	BS AU 166:1977 *Specification for road vehicles — Mounting of mechanical coupling devices on rear cross members of trucks* (Identical)
ISO 8755:1986	BS AU 219:1988 *Specification for dimensions of 40 mm drawbar couplings between commercial road vehicles and trailers* (Identical)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
