BRITISH STANDARD

BS EN 134102:1995

Specification for

Harmonized system of quality assessment for electronic components — Blank detail specification — Multi turn concentric capacitors (Qualification approval)

The European Standard EN 134102:1995 has the status of a British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee EPL/40, Capacitors and resistors for electronic equipment, to Subcommittee EPL/40/1, Capacitors and EMI suppression components for electronic equipment, upon which the following bodies were represented:

Federation of the Electronics Industry
Ministry of Defence
National Supervising Inspectorate (BSI PC)
Society of British Aerospace Companies Ltd.

National foreword

This British Standard has been prepared by Subcommittee EPL/40/1 and is the English language version of EN 134102:1995: *Blank detail specification: Multi turn disc concentric capacitors (Qualification approval),* published by the Electronic Components Committee (CECC) of the European Committee for Electrotechnical Standardization (CENELEC).

This standard lists the ratings, characteristics and inspection requirements which shall be included as mandatory requirements in any detail specification for this type of capacitor.

Detail specifications shall conform to the requirements of this blank detail specification and BS CECC 00111 *Rule of Procedure 11. Specifications* — Part 4:1991 *Regulations for CECC detail specifications.*

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality* — Part 2:1991 *Specification for the national implementation of the CECC system.*

Cross-references

Publication referred to	Corresponding British Standard
EN 134000:1994	BS EN 134000:1995[a] *Harmonized system of quality assessment for electronic components. Generic specification: Variable capacitors (Qualification approval and capability approval)*
	BS 5786: *Variable capacitors*
IEC 418-1	BS 5786-1:1979: *Methods of test*

[a] In preparation

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 13 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

EUROPEAN STANDARD

NORME EUROPÉENNE

EUROPÄISCHE NORM

EN 134102

August 1995

Descriptors: Quality, electronic components, capacitors

English version

Blank Detail Specification: Multi turn concentric capacitors (Qualification approval)

Spécification particulière cadre: Condensateurs concentriques à plusieurs tours (Homologation)

Vordruck für Bauartspezifikation: Mehr-Gang konzentrische Kondensatoren (Bauartanerkennung)

This European Standard was approved on 1993-07-29. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard was prepared by Working Group CLC/TC CECC/WG 3.

It is based, wherever possible, on the Publications of the International Electrotechnical Commission, and in particular on IEC 418, Variable capacitors.

The text of the draft based on document CECC(Secretariat)3098 was submitted to the formal vote; together with the voting report, circulated as document CECC(Secretariat)3379, it was approved as EN 134102 on 1993-07-29.

The following dates were fixed:

— latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1995-11-30

— latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 2003-11-30
