Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ACE/12, Aerospace fasteners and fastening systems, upon which the following bodies were represented:

Association of Electronic, Telecommunications and Business Equipment Industries

British Industrial Fasteners Federation

Ministry of Defence

Society of British Aerospace Companies

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1996

National foreword

This British Standard has been prepared by Technical Committee ACE/12 and is the English language version of EN 2897:1996 *Aerospace series — Screws, pan head, offset cruciform recess, close tolerance normal shank, short thread, in alloy steel, cadmium plated — Classification: 1 100 MPa (at ambient temperature)/235 °C* published by the European Committee for Standardization (CEN).

EN 2897:1996 was produced as a result of international discussions in which the United Kingdom took an active part.
