National foreword

This British Standard is the official English language version of EN 62148-2:2003. It is identical with IEC 62148-2:2003, including Corrigendum June 2003.

The UK participation in its preparation was entrusted by Technical Committee GEL/86, Fibre optics, to Subcommittee GEL/86/3, Fibre optic systems and active devices, which has the responsibility to:

— aid enquirers to understand the text;

— present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;

— monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

From 1 January 1997, all IEC publications have the number 60000 added to the old number. For instance, IEC 27-1 has been renumbered as IEC 60027-1. For a period of time during the change over from one numbering system to the other, publications may contain identifiers from both systems.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled "International Standards Correspondence Index", or by using the "Search" facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 11 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 21 May 2003

Amendments issued since publication

EUROPEAN STANDARD **EN 62148-2**

NORME EUROPÉENNE

EUROPÄISCHE NORM April 2003

ICS 33.180.01

English version

Fibre optic active components and devices - Package and interface standards Part 2: SFF MT-RJ 10-pin transceivers

(IEC 62148-2:2003)

Composants et dispositifs actifs en fibres optiques - Normes de boîtier et d'interface Partie 2: Emetteurs-récepteurs SFF MT-RJ à 10 broches (CEI 62148-2:2003)

Aktive Lichtwellenleiterbauelemente und -geräte - Gehäuse- und Schnittstellennormen Teil 2: Sende- und Empfangsmodule des Typs SFF MT-RJ mit 10 Anschlüssen (IEC 62148-2:2003)

This European Standard was approved by CENELEC on 2003-03-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of document 86C/487/FDIS, future edition 1 of IEC 62148-2, prepared by SC 86C, Fibre optic systems and active devices, of IEC TC 86, Fibre optics, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as EN 62148-2 on 2003-03-01.

The following dates were fixed:

– latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2003-12-01

– latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 2006-03-01

Annexes designated "normative" are part of the body of the standard.
In this standard, annex ZA is normative.
Annex ZA has been added by CENELEC.

This standard constitutes Part 2 of the EN 62148 series, published under the general title *Fibre optic active components and devices - Package and interface standards*. This series consists of Part 1, devoted to general requirements, and various parts specific to individual module families.

Part 1: General and guidance
Part 2: SFF MT-RJ 10-pin transceivers
Part 3: SFF MT-RJ 20-pin transceivers
Part 4: PN 1x9 plastic optical fibre transceivers
Part 5: SC 1x9 fibre optic modules
Part 6: ATM-PON transceivers
Part 7: SFF LC 10-pin transceivers
Part 8: SFF LC 20-pin transceivers
Part 9: SFF MU duplex 10-pin transceivers
Part 10: SFF MU duplex 20-pin transceivers
Part 11: 14-pin modulator-integrated laser diode modules

Endorsement notice

The text of the International Standard IEC 62148-2:2003 was approved by CENELEC as a European Standard without any modification.
