National foreword

This British Standard has been prepared by Technical Committee TCI/25 and is the English language version of EN ISO 105-B05:1995 *Textiles — Tests for colour fastness — Part B05 Detection and assessment of photochromism*, published by the European Committee for Standardization (CEN). It is identical with ISO 105-B05:1993, published by the International Organization for Standardization (ISO).

This British Standard supersedes the corresponding method in BS 1006:1990, which is withdrawn by amendment.

Cross-references

Publication referred to	Corresponding British Standard
	BS EN 20105 *Textiles — Tests for colour fastness*
ISO 105-A01:1989	Part A01:1993 *General principles of testing*
ISO 105-A02:1993	Part A02:1995 *Grey scale for assessing change in colour*
ISO 105-B02:1988	Part B02:1993 *Colour fastness to artificial light (xenon arc fading lamp test)*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
