Committees responsible for this British Standard

This British Standard was prepared by the Information Technology Systems Standards Policy Committee (IST/-), upon which the following bodies were represented:

Association for Payment Clearing Services
BEAMA Ltd. (GAMBICA)
British Computer Society
British Office Systems and Stationery Federation
British Telecommunications plc
Chartered Institute of Management Accountants
Computing Services Association
Department of Trade and Industry (Information Technology Division)
Department of Trade and Industry (National Physical Laboratory)
EEA (The Electronics and Business Equipment Association)
Electricity Supply Industry in England and Wales
Engineering Employers' Federation
Engineering Equipment and Materials Users' Association
HM Customs and Excise
HM Treasury (Central Computer and Telecommunications Agency)
Health and Safety Executive
Information Technology Users' Standards Association
Institute of Administrative Management
Institute of Chartered Secretaries and Administrators
Institute of Purchasing and Supply
Institution of Electrical Engineers
Inter-universities Computing Committee
Library Association
Ministry of Defence
National Computer Users' Forum
National Computing Centre Ltd.
National Health Service
Simpler Trade Procedures Board (SITPRO)
Telecommunication Engineering and Manufacturing Association
User Standards Forum for Information Technology (Institute of Data Processing Management)
Coopted member

This British Standard, having been prepared under the direction of the Information Technology Systems Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 30 November 1990

National foreword

This British Standard reproduces verbatim ISO 2382-18:1987 and implements it as the UK national standard.

This British Standard is published under the direction of the Information Technology Systems Standards Policy Committee which has the responsibility to:

— aid enquirers to understand the text;

— present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;

— monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from BSI Sales Department, BSI, Linford Wood, Milton Keynes, MK14 6LE.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, pages ii to iv, pages 1 to 13 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council. They are approved in accordance with ISO procedures requiring at least 75 % approval by the member bodies voting.

International Standard ISO 2382-18 was prepared by Technical Committee ISO/TC 97, *Information processing systems*.

Users should note that all International Standards undergo revision from time to time and that any reference made herein to any other International Standard implies its latest edition, unless otherwise stated.

Avant-propos

L'ISO (Organisation internationale de normalisation) est une fédération mondiale d'organismes nationaux de normalisation (comités membres de l'ISO). L'élaboration des Normes internationales est normalement confiée aux comités techniques de l'ISO. Chaque comité membre intéressé par une étude a le droit de faire partie du comité technique créé à cet effet. Les organisations internationales, gouvernementales et non gouvernementales, en liaison avec l'ISO participent également aux travaux.

Les projets de Normes internationales adoptés par les comités techniques sont soumis aux comités membres pour approbation, avant leur acceptation comme Normes internationales par le Conseil de l'ISO. Les Normes internationales sont approuvées conformément aux procédures de l'ISO qui requièrent l'approbation de 75 % au moins des comités membres votants.

La Norme internationale ISO 2382-18 a été élaborée par le comité technique ISO/TC 97, *Systèmes de traitement de l'information*.

L'attention des utilisateurs est attirée sur le fait que toutes les Normes internationales sont de temps en temps soumises à révision et que toute référence faite à une autre Norme internationale dans le présent document implique qu'il s'agit, sauf indication contraire, de la dernière édition.
