1. Reaffirmation and Continuance of the 9th Edition of the Standard for Fluorescent Lamp Starters, UL 542, as an American National Standard

RATIONALE

Proposal submitted by: Joseph Musso, STP Chair

UL is proposing to reaffirm the ANSI approval of UL 542. The status of ANSI approval is required to be updated by a positive, consensus reaffirmation of the standard by the STP if the standard has not been otherwise updated in the consensus process during the preceding five years.

UL is seeking only to maintain the currently published requirements in UL 542 as an American National Standard. There are no new revisions being proposed at this time. A reaffirmation is a Yes / No vote provided by the STP on whether or not to reaffirm the standard “as is.” Any specific comment on the standard or proposed change to the standard should be submitted as a new Proposal Request in CSDS for future consideration.
