# Recommendation ITU-T M.3170.1

## Multi-technology network management: Business agreement (TMF513)

## Amendment 1

## Upgrade to MTNM Release 3.5

### Summary

The current in-force ITU-T M.3170.x series of Recommendations provides the MTNM solution suite v3.0 from TM Forum. A newer version of MTNM has been applied across the industry (e.g., Release 3.5). In order to support conformance testing for this series of Recommendations within ITU-T, Amendment 1 to Recommendation ITU-T M.3170.1 (2007) provides the upgraded information from MTNM v3.0 to MTNM release 3.5, including updated references to TMF Release 3.5-related specifications. More detailed updates will be provided while upgrading to TMF MTNM Release 4.0 or 4.5 when it is more stable and fully supported by the industry.

### History

| Edition | Recommendation | Approval | Study Group | Unique ID* |
|---|---|---|---|---|
| 1.0 | ITU-T M.3170.1 | 2007-03-16 | 4 | 11.1002/1000/9077 |
| 1.1 | ITU-T M.3170.1 (2007) Amd. 1 | 2015-04-29 | 2 | 11.1002/1000/12469 |

* To access the Recommendation, type the URL http://handle.itu.int/ in the address field of your web browser, followed by the Recommendation's unique ID. For example, http://handle.itu.int/11.1002/1000/11830-en.
