Interested committees:

Title: BS EN 63458-2 High Pressure Water Jet Machines - Safety

Part 2: High Pressure hoses, hose lines and connectors

Please notify the secretary if you are aware of any keywords that might assist in classifying or identifying the standard or if the content of this standard

- i) has any issues related to 3rd party IPR, patent or copyright
- ii) affects other national standard(s)
- iii) requires additional national guidance or information

**WARNING: THIS IS A DRAFT AND MUST NOT BE REGARDED OR USED AS A BRITISH STANDARD.
THIS DRAFT IS NOT CURRENT BEYOND 11 January 2023**

This draft is issued to allow comments from interested parties; all comments will be given consideration prior to publication. No acknowledgement will normally be sent. **See overleaf for information on the submission of comments.**

No copying is allowed, in any form, without prior written permission from BSI except as permitted under the Copyright, Designs and Patent Act 1988 or for circulation within a nominating organization for briefing purposes. Electronic circulation is limited to dissemination by e-mail within such an organization by committee members.

Further copies of this draft may be purchased from BSI Shop <http://shop.bsigroup.com> or from BSI Customer Services, Tel: +44(0) 20 8996 9001 or email cservices@bsigroup.com. British, International and foreign standards are also available from BSI Customer Services.

Information on the co-operating organizations represented on the committees referenced above may be obtained from <http://standardsdevelopment.bsigroup.com>

Introduction

This draft standard is based on national and international discussions. Your comments on this draft are invited and will assist in the preparation of the consequent standard.

For international standards, comments will be reviewed by the relevant UK national committee before sending the consensus UK vote and comments to the international committee, which will then decide appropriate action. If the international standard is approved, it is usual for the text to be published as a British Standard.

For national standards, comments will be reviewed by the relevant UK national committee and the resulting standards published as a British Standard.

UK Vote

Please indicate whether you consider the UK should submit a negative (with supporting technical reasons) or positive vote on this draft. Please indicate if you are aware of any reason why this draft standard should not be published as a British Standard.

Submission of Comments

- **Annotated drafts are not acceptable and will be rejected.**
- All comments should be submitted online at <https://standardsdevelopment.bsigroup.com/>. You will need to register in order to comment.

COMMITTEE DRAFT FOR VOTE (CDV)

PROJECT NUMBER: IEC 63458-2 ED1	
DATE OF CIRCULATION: 2022-11-18	CLOSING DATE FOR VOTING: 2023-02-10
SUPERSEDES DOCUMENTS: 61J/754/NP, 61J/759/RVN	

IEC SC 61J : ELECTRICAL MOTOR-OPERATED CLEANING APPLIANCES FOR COMMERCIAL USE	
SECRETARIAT: Germany	SECRETARY: Mr Charalambos Freed
OF INTEREST TO THE FOLLOWING COMMITTEES:	PROPOSED HORIZONTAL STANDARD: ☐ Other TC/SCs are requested to indicate their interest, if any, in this CDV to the secretary.
FUNCTIONS CONCERNED: ☐ EMC ☐ ENVIRONMENT ☐ QUALITY ASSURANCE ☒ SAFETY	
☒ SUBMITTED FOR CENELEC PARALLEL VOTING Attention IEC-CENELEC parallel voting The attention of IEC National Committees, members of CENELEC, is drawn to the fact that this Committee Draft for Vote (CDV) is submitted for parallel voting. The CENELEC members are invited to vote through the CENELEC online voting system.	☐ NOT SUBMITTED FOR CENELEC PARALLEL VOTING

This document is still under study and subject to change. It should not be used for reference purposes.

Recipients of this document are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

TITLE:

High Pressure Water Jet Machines - Safety - Part 2: High Pressure hoses, hose lines and connectors

PROPOSED STABILITY DATE: 2026

NOTE FROM TC/SC OFFICERS:

CONTENTS

FOREWORD.....	3
Introduction.....	5
1 Scope	6
2 Normative references	6
3 Terms and definitions	6
3.1 burst pressure	6
3.2 interconnected hose lines	6
3.3 connector safety devices.....	6
4 List of significant hazards	7
4.1 General.....	7
4.2 Hazards due to bursting or leaking of hoses.....	7
4.3 Hazards due to failure of connectors	7
4.4 Hazards due to errors by the operator	7
4.5 Hazards due to change in length of hose line	7
5 Safety requirements and/or protective measures	7
5.1 General.....	7
5.2 Requirements for compatibility of components	7
5.3 Mechanical requirements	7
5.4 Requirements concerning the maximum allowable working pressure for hose lines.....	7
5.5 Thermal requirements	8
5.6 Requirements concerning change in length of hose lines	8
5.7 Requirements for tensile strength of hose lines	8
5.8 Requirements for loosening connectors	8
5.9 Requirements for connector safety devices	8
6 Verification of the safety requirements and/or protective measures.....	8
6.1 Tests for hose lines.....	8
6.1.1 6.1.1 General.....	8
6.1.2 Leakage test.....	9
6.1.3 Change in length test.....	9
6.1.4 Cold bend test	9
6.1.5 Burst pressure test	9
6.1.6 Impulse test	9
6.1.7 Tensile test.....	9
6.1.8 Proof pressure hold test.....	9
6.2 Tests of connector safety devices	9
7 Information for use	9
7.1 7.1 Marking	9
7.1.1 Marking of hoses and hose lines	9
7.1.2 Marking of connectors	10
7.2 Operating instructions	10

7.2.2 Operation	10

INTERNATIONAL ELECTROTECHNICAL COMMISSION

HIGH PRESSURE WATER JET MACHINES - SAFETY -

Part 2: High pressure hoses, hose lines and connectors

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

IEC 63458-2 has been prepared by subcommittee 61J: Electrical motor-operated cleaning appliances for commercial use, of IEC technical committee 61: Safety of household and similar electrical appliances. It is an International Standard.

The text of this International Standard is based on the following documents:

Draft	Report on voting
XX/XX/FDIS	XX/XX/RVD

Full information on the voting for its approval can be found in the report on voting indicated in the above table.
