Responsible committee: B/525/6 Use of masonry

Interested committees: B/525

Title: NA TO BS EN 1996-1-2 UK National Annex to Eurocode 6: Design of masonry structures Part 1-2:
General rules - Structural fire design

Please notify the secretary if you are aware of any keywords that might assist in classifying or identifying the standard or if the content of this standard

- i) has any issues related to 3rd party IPR, patent or copyright
- ii) affects other national standard(s)
- iii) requires additional national guidance or information

**WARNING: THIS IS A DRAFT AND MUST NOT BE REGARDED OR USED AS A BRITISH STANDARD.
THIS DRAFT IS NOT CURRENT BEYOND 10 January 2025**

This draft is issued to allow comments from interested parties; all comments will be given consideration prior to publication. No acknowledgement will normally be sent. **See overleaf for information on the submission of comments.**

No copying is allowed, in any form, without prior written permission from BSI except as permitted under the Copyright, Designs and Patent Act 1988 or for circulation within a nominating organization for briefing purposes. Electronic circulation is limited to dissemination by e-mail within such an organization by committee members.

Further copies of this draft may be purchased from BSI Shop <http://shop.bsigroup.com> or from BSI Customer Services, Tel: + 44(0) 20 8996 9001 or email cservices@bsigroup.com. British, International and foreign standards are also available from BSI Customer Services.

Information on the co-operating organizations represented on the committees referenced above may be obtained from <http://standardsdevelopment.bsigroup.com>

Introduction

Your comments on this draft are invited and will assist in the preparation of the consequent standard.

For international and European standards, comments will be reviewed by the relevant UK national committee before submitting the consensus UK vote and comments. If the draft standard is approved, it is usual for the resulting published standard to be adopted as a British Standard.

For national standards, comments will be reviewed by the relevant UK national committee and the resulting standards published as a British Standard.

UK Vote

Please indicate whether you consider the UK should submit a negative (with supporting technical reasons) or positive vote on this draft. Please indicate if you are aware of any reason why this draft standard should not be published as a British Standard.

Submission of Comments

Annotated drafts are not acceptable and will be rejected.

All comments should be submitted online at <http://standardsdevelopment.bsigroup.com>. You will need to register in order to comment.

WARNING. THIS IS A DRAFT AND MUST NOT BE REGARDED OR USED AS A BRITISH STANDARD. THIS DRAFT IS NOT CURRENT BEYOND **10 JANUARY 2025**.

National Annex to BS EN 1996-1-2:2024

DRAFT

Foreword

Publishing information

This National Annex is published by BSI Standards Limited, under licence from The British Standards Institution, and came into effect on **XX Month 202X**. It was prepared by Technical Committee B/525, *Masonry*. A list of organizations represented on this committee can be obtained on request to the committee manager.

Supersession

National Annex supersedes UK NA+A2:2022 to BS EN 1996-1:2004+A1:2013, which is withdrawn.

Relationship with other publications

As the National Annex contains the NDPs that are set out in the Eurocode, the National Annex cannot be used by itself. The current version of this National Annex is only to be used with the current version of BS EN 1996-1-2:2024.

Information about this document

This National Annex to the EN Eurocode contains the national choices to be used for buildings and civil engineering works constructed in the UK. It also includes complementary information that is non-conflicting with the Eurocode itself.

The first generation of EN Eurocodes will remain current until 30 March 2028 and will then be withdrawn. The second generation of EN Eurocodes will be current upon publication and both sets of documents will co-exist until 30 March 2028.

The first generation of EN Eurocodes was published between 2002 and 2007, with conflicting British Standards withdrawn in 2010. This National Annex forms part of the second generation of EN Eurocodes suite of documents. The second generation of National Annexes to Eurocodes are expected to be published between 2024 and 2026. These documents are being published as soon as they are available. This is being done to enable users to prepare for the transition from the first generation to second generation of EN Eurocodes suite of documents. National Annexes of the first generation of Eurocodes will be withdrawn alongside the first generation of EN Eurocodes by BSI on 30 March 2028. This publication can be withdrawn, revised, partially superseded or superseded. Information regarding the status of this publication can be found in the Standards Catalogue on the BSI website at bsigroup.com/standards, or by contacting the Customer Services team.

Where websites and webpages have been cited, they are provided for ease of reference and are correct at the time of publication. The location of a webpage or website, or its contents, cannot be guaranteed.

Presentational conventions

The verb "shall" expresses a requirement strictly to be followed and from which no deviation is permitted in order to comply with the Eurocodes and the NDP specified in this National Annex.

The verb "should" expresses a highly recommended choice or course of action. Subject to national regulation and/or any relevant contractual provisions, alternative approaches could be used/adopted where technically justified.

The verb "may" expresses a course of action permissible within the limits of the Eurocodes and the NDP specified in this National Annex.

The verb "can" expresses possibility and capability; it is used for statements of fact and clarification of concepts.

Where words have alternative spellings, the preferred spelling of the *Shorter Oxford English Dictionary* is used (e.g. “organization” rather than “organisation”).

Where reference is made to a BS EN Eurocode document that shall be understood to include the relevant National Annex where applicable.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.

Compliance with a National Annex cannot confer immunity from legal obligations.
