REVISED AMERICAN DENTAL ASSOCIATION TECHNICAL REPORT NO. 1006 FOR INFECTION CONTROL FOR DENTAL INFORMATION SYSTEMS

The Council on Dental Practice and Council on Scientific Affairs of the American Dental Association have approved American Dental Association Technical Report No. 1006 for Infection Control for Dental Information Systems. Working Groups of the ADA Standards Committee on Dental Informatics (SCDI) and ADA Standards Committee on Dental Products (SCDP) formulate this and other specifications and technical reports for the application of information technology and other electronic technologies to dentistry's clinical and administrative operations. The ADA SCDI and SCDP have representation from appropriate interests in the United States in the standardization of information technology and other electronic technologies used in dental practice. The ADA SCDI confirmed approval of ADA Technical Report No. 1065 on January 17, 2013. The ADA SCDP confirmed approval of ADA Technical Report No. 1065 on June 26, 2013.

Publication of this technical report that has been registered with ANSI has been approved by the American Dental Association, 211 E. Chicago Ave., Chicago, IL 60611. This document is registered as a technical report according to the *Procedures for the Registration of Technical Reports with ANSI*. This document is not an American National Standard and the material contained herein is not normative in nature. Comments on this document should be sent to the American Dental Association, 211 E. Chicago Ave., Chicago, IL 60611.

This technical report was prepared by the Joint SCDP/SCDI Working Group on Infection Control. The ADA SCDI and ADA SCDP thank the members of the Joint SCDP/SCDI Working Group on Infection Control and the organizations with which they were affiliated at the time this technical report was developed:
