IMPORTANT

SAFETY DISCLAIMER

AHRI does not set safety standards and does not certify or guarantee the safety of any products, components or systems designed, tested, rated, installed or operated in accordance with this standard/guideline. It is strongly recommended that products be designed, constructed, assembled, installed and operated in accordance with nationally recognized safety standards and code requirements appropriate for products covered by this standard/guideline.

AHRI uses its best efforts to develop standards/guidelines employing state-of-the-art and accepted industry practices. AHRI does not certify or guarantee that any tests conducted under its standards/guidelines will be non-hazardous or free from risk.

Note:

This guideline supersedes AHRI Guideline X-2009.

AHRI CERTIFICATION PROGRAM DISCLAIMER

AHRI Standards are developed independently of AHRI Certification activities and can have scopes that include products that are not part of the AHRI Certification Program. The scope of the applicable AHRI Certification Program can be found on AHRI's website at http://www.ahrinet.org.

Intent

This guideline is intended for the guidance of the industry, including gas utility companies, government authorities, manufacturers, engineers, building inspectors, building code officials, installers, contractors, and trained and qualified technicians.

Review and Amendment

This guideline is subject to review and amendment as technology advances.

2023 Edition

This edition of AHRI Guideline X, *Induced Draft Furnace Heat Exchanger Inspection*, was prepared by the Furnaces Standards Technical Committee. The guideline was approved by the Unitary Standards Subcommittee in June 2023.

Origin and Development of AHRI Guideline X

The initial publication was AHRI Guideline X-2009, *Induced Draft Furnace Heat Exchanger Inspection*.

Summary of Changes

AHRI Guideline X-2023 contains the following update(s) to the previous edition:

- Update to intent
- Update definitions to align with the current ASHRAE definitions
- Revisions to OSHA guidelines to align with current OSHA regulations.
- Update to Section 4.2
