TO: Purchasers of NAS1394 – REV 7

FROM: Christopher Carnahan - Director, Standardization

SUBJ: Correction of NAS1394 – REV 7; release of REV 8

The Aerospace Industries Association is responsible for maintaining the National Aerospace Standards. We rely upon aerospace industry experts to create, review, and revise the NAS standards to ensure they meet the needs of the industry.

It was brought to my attention that some of the requirements in NAS1394 were changed between Rev 6 and Rev 7 that did not appear consistent with the standard. After reviewing the documents, we discovered that we accidentally published an early draft of NAS1394 instead of the final committee approved version. NAS1394 – REV 8 was approved by the National Aerospace Standards Committee and is being provided as a replacement to REV 7. Those who purchased REV 7 will receive a copy of REV 8 at no charge.

I apologize for the inconvenience. If you have any questions or concerns, please contact me.
