TABLES

TABLE I – Hazardous Material Target List (HMTL)	4
---	---

1. SCOPE

The Hazardous Material Target List (HMTL) has been developed to support and enhance the management of risks associated with the use of hazardous materials (HAZMAT) in Products and Services, consistent with National Aerospace Standard 411 (NAS411) *Hazardous Materials Management Program* and MIL-STD 882E, Task 108 *Hazardous Materials Management Plan*.

2. PURPOSE

This NAS is intended to cover the identification of the HMTL and to provide guidance on its use. The HMTL has been developed to provide a common starting point for the identification of specific requirements to limit risks and/or report hazardous materials in Products and Services, as required by contract.

3. ACRONYMS AND DEFINITIONS

3.1 Acronyms

The acronyms used in this NAS411-1 are defined as follows:

- | | | |
|----|--------|--|
| a. | AIA | Aerospace Industries Association |
| b. | CHMTL | Contractual Hazardous Material Target List |
| c. | ESOH | Environment, Safety, and Occupational Health |
| d. | HAZMAT | Hazardous Material |
| e. | HMTL | Hazardous Material Target List |
| f. | MSDS | Material Safety Data Sheet |
| g. | NAS | National Aerospace Standard |
| h. | SDS | Safety Data Sheet |

3.2 Definitions

The following definitions apply:

3.2.1 Contractual HMTL

A HMTL established by specific contract requirements for the use in meeting contractually-driven HMMP requirements, categorized as prohibited, restricted, or tracked consistent with NAS 411 or MIL-STD-882E, Task 108.

3.2.2 Environment, Safety, and Occupational Health (ESOH)

An acronym that refers to the combination of disciplines that encompass the processes and approaches for addressing laws, regulations, Executive Orders (EO), DoD policies, environmental compliance, and hazards associated with environmental impacts, system safety (e.g., platforms, systems, system-of-systems, weapons, explosives, software, ordnance, combat systems), occupational safety and health, hazardous materials management, and pollution prevention.

3.2.3 Hazardous Material (HAZMAT)

A substance that could cause harm to people, the environment or equipment due to its chemical, physical, toxicological or biological nature.
