American Institute of Steel Construction

The information presented in this Standard has been prepared by the Certification Committee of the American Institute of Steel Construction (AISC) in a consensus manner in accordance with recognized industry standards, codes, and practices. The Standard has been prepared within the scope and for the purposes stated in the body of this document and for no other purpose.

The Standard has been developed by a balanced committee of participants in the industry who have particular experience and expertise in the topics addressed in the Standard. Every effort has been made to solicit comments and participation from a broad cross section of the construction industry. Participation by any federal or state agency representative(s) in this process is not to be interpreted as government endorsement of this Standard.

AISC accepts responsibility for only those interpretations of this Standard that are issued in writing and in accordance with governing AISC procedures and policies. Issuances of informal interpretations are not necessarily the official interpretation of AISC or its Certification Committee. This Standard is subject to revision at any time by the AISC Certification Committee.

Neither AISC nor its program auditors approve, rate, or endorse any item, construction technique, proprietary device, or activity referenced in this Standard. Nor do they take any position with respect to the validity of any patent rights asserted in connection with any items referenced in this Standard, nor suggest infringement of any patent, nor undertake to insure or indemnify anyone utilizing this Standard against liability for infringement of any applicable Letters Patent.

AISC disclaims for itself, its committee members and its program auditors any liability for any injury to persons or to property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance upon this Standard or application of the activities or devices referenced herein.

Caution must be exercised when relying upon other specifications or codes developed by other bodies and incorporated by reference herein. Such material may be modified or amended from time to time by such other bodies subsequent to the printing of this Standard. AISC bears no responsibility for such material other than to refer to it as being applicable to this Standard and to incorporate it by reference at the time of the initial publication of this Standard.

Prepared under the direction of the

AISC CERTIFICATION COMMITTEE

David Harwell, Chairperson	Central Texas Iron Works, Inc.
Roberta L. Marsteller, Secretary	American Institute of Steel Construction
Richard Arn	Weldtech International
William G. Ashton	Ashton Detailing Company
Bruce Basden	Basden Steel Corporation
Theodore L. Droessler	Clark County Dept. of Development Services Building Division
Heather Gilmer	Texas Dept. of Transportation—Construction Division
Keith Landwehr	Schuff Steel Company
Clay Larson	City of Coon Rapids, Engineering Division
John T. Linn	John Linn Associates, Inc.
H. Scott Metzger	Harman Services
Terry Peshia	Garbe Iron Works, Inc.
Homer R. Peterson, II	Peterson Beckner Industries Inc.
Alan T. Sheppard	The DuRoss Group, Inc.
Louis N. Triandafilou	Federal Highway Administration
John J. Weninger, Jr.	Lionakis Beaumont Design Group Inc.

ADVISORY

Daniel J. Kaufman	Quality Management Company, LLC
Brian W. Miller	American Institute of Steel Construction
Patricia A. Thomashefsky	Quality Management Company, LLC
Michael A. West	Computerized Structural Design, S.C.

STAFF

Roger E. Ferch	American Institute of Steel Construction
David B. Ratterman, Esq.	Stites & Harbison, PLLC

TABLE OF CONTENTS

1.	Purpose	1
2.	Scope	1
3.	References.....	1
4.	Definitions.....	1
5.	Management Responsibility	4
5.1	Policy for Quality and Quality Goals	4
5.2	Direction and Leadership	4
5.3	Management Representative.....	5
5.4	Resources	5
5.5	Internal Communication	6
5.6	Documentation Requirements	6
6.	Contract and Project Specification Review and Communication	6
7.	Detailing.....	7
7.1	Detailing Procedures.....	7
7.2	Detailing Function Resources.....	8
8.	Document and Data Control	9
8.1	Review and Approval.....	9
8.2	Customer Requirements	9
8.3	Revision Control	9
8.4	Access	9
8.5	Obsolescence and Transmittal	9
9.	Control of Quality Records	9
9.1	Retention of Quality Records	10
9.2	Availability of Quality Records.....	10
10.	Purchasing.....	10
10.1	Purchasing Data.....	10
10.2	Selection of Subcontractors and Suppliers.....	10
10.3	Verification of Purchased Product, Materials, and Services	11
10.4	Customer Verification of Fabricated Product	11
10.5	Control of Customer-Supplied Material	11
11.	Material Identification	11
12.	Fabrication Process Control	11
12.1	Welding.....	11
12.2	Bolt Installation	11
12.3	Material Preparation for Application of Coatings	12
12.4	Coating Application	12
12.5	Equipment Maintenance	12
13.	Inspection and Testing.....	12
13.1	Assignment of QC Inspections and Monitoring.....	12
13.2	Inspection Procedure	12
14.	Calibration of Inspection, Measuring, and Test Equipment.....	13
15.	Control of Nonconformances.....	13
15.1	Nonconforming Process	13
15.2	Nonconforming Product	13
16.	Corrective Action.....	14
17.	Handling, Storage and Delivery of Product and Materials.....	14
18.	Training	14
19.	Internal Audit.....	14
