American Institute of Steel Construction, Inc.

The information presented in this Standard has been prepared by the Certification Committee of the American Institute of Steel Construction, Inc. (AISC) in a consensus manner in accordance with recognized industry Standards, codes, and practices. The Standard has been prepared within the scope and for the purposes stated in the body of this document and for no other purpose.

The Standard has been developed by a balanced committee of participants in the industry who have particular experience and expertise in the topics addressed in the Standard. Every effort has been made to solicit comments and participation from a broad cross section of the construction industry. Participation by any federal or state agency representative(s) in this process is not to be interpreted as government endorsement of this Standard.

AISC accepts responsibility for only those interpretations of this Standard that are issued in writing and in accordance with governing AISC procedures and policies. Issuances of informal interpretations are not necessarily the official interpretation of AISC or its Certification Committee. This Standard is subject to revision at any time by the AISC Standards Committee.

Neither AISC nor its program auditors approve, rate, or endorse any item, construction technique, proprietary device, or activity referenced in this Standard. Nor do they take any position with respect to the validity of any patent rights asserted in connection with any items referenced in this Standard, nor suggest infringement of any patent, nor undertake to insure or indemnify anyone utilizing this Standard against liability for infringement of any applicable Letters Patent.

AISC disclaims for itself, its committee members and its program auditors any liability for any injury to persons or to property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance upon this Standard or application of the activities or devices referenced herein.

Caution must be exercised when relying upon other specifications or codes developed by other bodies and incorporated by reference herein. Such material may be modified or amended from time to time by such other bodies subsequent to the printing of this Standard. AISC bears no responsibility for such material other than to refer to it as being applicable to this Standard and to incorporate it by reference at the time of the initial publication of this Standard.

AISC CERTIFICATION COMMITTEE

David Harwell, Chairperson	Central Texas Iron Works, Inc.
Chris Crosby, Secretary	American Institute of Steel Construction, Inc.
Bill Ashton	Egger Steel Company
Ted Droessler	Clark County Department of Buildings
Rod Gibble	R.D.G. Consulting Engineers
Jim Harris	Ashland Chemical
Tim Hernandez	Robert W. Hunt Company
Viji Kuruvilla	Havens Steel Company
Keith Landwehr	Schuff Steel Company
Clay Larson	City of Coon Rapids, Engineering
Ronnie Medlock	Texas Department of Transportation
Mike Merlo	Select-Arc
Scott Metzger	Hillis-Carnes Engineering
Keiran O'Brien	Danny's Construction Company
Greg Rowell	DuPont
Krishna Verma	Federal Highway Administration HIBT
Edward P. Wasserman	Tennessee Department of Transportation

AISC QUALIFICATION STANDARDS COMMITTEE

Viji Kuruvilla, Chairperson	Havens Steel Company
Chris Crosby, Secretary	American Institute of Steel Construction, Inc.
Ken Coryell	Consultant
Rod Gibble	R.D.G. Consulting Engineers
Fred Haas	Consultant
Jim Harris	Ashland Chemical
Larry Kloiber	LeJeune Steel Company
Terry Logan	Terry Logan & Associates
Scott Metzger	Hillis—Carnes Engineering
John Myers	SMI—Owen Steel Company
Tom Seely	North Texas Steel Company
Leroy Vanadestine	Cianbro Corporation

AISC AUDITING COMMITTEE

Bill Ashton, Chairperson	Egger Steel Company
Anna Petroski, Secretary	Quality Management Company LLC
Bill Davidson	Turner Construction
Kurt Gustafson	Tylk Gustafson Reckers Wilson Andrews, LLC
Tim Hernandez	Robert W. Hunt Comp.
Ken Krieger	Fab Arc
Terry Logan	Terry Logan & Associates
Ronnie Medlock	Texas DOT
Keiran O'Brien	Danny's Construction Company
Russ Panico	High Steel Structures, Inc.
Don Price	Havens SPI
Greg Rowell	DuPont
Elmer Weber	PDM Bridge—WAUSAU

TABLE OF CONTENTS

The Quality Certification Standard is comprised of the following elements. The requirements for each element are described within each section.

1. Purpose	9
2. Scope	9
3. References	9
4. Definitions	9
5. Management Responsibility	11
5.1 Commitment (Policy)	11
5.2 Direction and Leadership	12
5.3 Management Representative	12
5.4 Resources	12
5.5 Internal Communication	13
5.6 Documentation Requirements	13
6. Contract and Project Specification Review and Communication	13
7. Detailing.....	14
7.1 Detailing Procedures	14
7.2 Detailing Function Resources	14
8. Document and Data Control	15
8.1 Review and Approval.....	15
8.2 Customer Requirements	15
8.3 Revision Control	15
8.4 Access	15
8.5 Obsolescence and Transmittal	15
9. Control of Quality Records	16
10. Purchasing.....	16
10.1 Purchasing Data.....	16
10.2 Selection of Subcontractors	16
10.3 Verification of Purchased Product, Materials and Services	16
10.4 Customer Verification of Fabricated Product	16
10.5 Control of Customer-Supplied Material	16
11. Material Identification	16
12. Fabrication Process Control	17
12.1 Welding	17
12.2 Bolt installation	17
12.3 Material Preparation for Application of Coatings	17
12.4 Coating Application	17
12.5 Equipment Maintenance	17
13. Inspection and Testing	17
13.1 Assignment of QC Inspections and Monitoring	17
13.2 Inspection Procedure	17
14. Calibration of Inspection, Measuring and Test Equipment.....	18
15. Control of Nonconformances.....	18
16. Corrective Action	18
17. Handling, Storage and Delivery of Product and Materials	18
18. Training	18
19. Internal Audit	19
