AISI STANDARD

Supplement 2 to the North American Standard for Cold-Formed Steel Framing - Truss Design

2007 Edition

Endorsed by Steel Framing Alliance

DISCLAIMER

The material contained herein has been developed by the American Iron and Steel Institute Committee on Framing Standards. The Committee has made a diligent effort to present accurate, reliable, and useful information on cold-formed steel framing design and installation. The Committee acknowledges and is grateful for the contributions of the numerous researchers, engineers, and others who have contributed to the body of knowledge on the subject. Specific references are included in the *Commentary*.

With anticipated improvements in understanding of the behavior of cold-formed steel framing and the continuing development of new technology, this material will become dated. It is anticipated that AISI will publish updates of this material as new information becomes available, but this cannot be guaranteed.

The materials set forth herein are for general purposes only. They are not a substitute for competent professional advice. Application of this information to a specific project should be reviewed by a design professional. Indeed, in many jurisdictions, such review is required by law. Anyone making use of the information set forth herein does so at their own risk and assumes any and all liability arising therefrom.

PREFACE

The American Iron and Steel Institute Committee on Framing Standards has developed Supplement 2 to AISI S214-07, the *North American Standard for Cold-Formed Steel Framing – Truss Design, 2007 Edition*, to better describe design responsibilities and criteria for loading, manufacturing quality, installation and bracing.

This Supplement 2 to AISI S214-07 replaces Supplement 1 to AISI S214-07.

This Supplement revises and replaces Chapters A, B, C, E and F of AISI S214-07.

The Committee acknowledges and is grateful for the contributions of the numerous engineers, researchers, producers and others who have contributed to the body of knowledge on the subjects. The Committee wishes to also express their appreciation for the support of the Steel Framing Alliance.

The Committee acknowledges the significant investment and guidance provided by the Construction Market Council of the Steel Market Development Institute, a business unit of AISI.

AISI COMMITTEE ON FRAMING STANDARDS

Richard Haws, <i>Chairman</i>	NUCONSTEEL
Steve Fox, <i>Vice Chairman</i>	Canadian Sheet Steel Building Institute
Jay Larson, <i>Secretary</i>	American Iron and Steel Institute
Don Allen	Steel Stud Manufacturers Association
Bill Babich	ITW Building Components Group
John Butts	John F. Butts & Associates
Brad Cameron	Keymark Engineering
Richard Chisholm	Lacerte Builders
Nader Elhajj	FrameCAD Solutions
Jeff Ellis	Simpson Strong-Tie
Ray Frobosilo	Super Stud Building Products
Michael Gardner	Gypsum Association
Greg Greenlee	USP Structural Connectors
Jeff Klaiman	ADTEK Engineers
Roger LaBoube	University of Missouri-Rolla
John Matsen	Matsen Ford Design Associates
Kenneth Pagano	Scosta Corporation
Mike Pellock	Aegis Metal Framing
Nabil Rahman	The Steel Network
Greg Ralph	Dietrich Industries
Harry Ray	Allied Studco
Gary Rolih	Consultant
Ben Schafer	Johns Hopkins University
Fernando Sesma	California Expanded Metal Products
Sutton Stephens	Kansas State University
Tom Trestain	T.W.J. Trestain Structural Engineering
Steven Walker	Steven H. Walker, P.Eng.
Lei Xu	University of Waterloo
Rahim Zadeh	Marino \ Ware

TABLE OF CONTENTS

SUPPLEMENT 2 TO THE NORTH AMERICAN STANDARD FOR COLD-FORMED STEEL FRAMING – TRUSS DESIGN

DISCLAIMER.....	ii
PREFACE.....	iii
AISI COMMITTEE ON FRAMING STANDARDS.....	iv
TRUSS DESIGN SUBCOMMITTEE.....	v
A. GENERAL.....	1
A1 Scope	1
A2 Definitions	1
A3 Loads and Load Combinations	2
A4 Referenced Documents.....	2
B. TRUSS DESIGN RESPONSIBILITIES	3
B1 Design of Trusses	3
B2 Responsibilities of Truss Design Engineer / Truss Designer	3
B2.1 Preparation of Truss Design Drawings	3
B2.2 Truss Design Criteria, Assumptions and Calculations.....	3
B2.3 Truss Design Drawings.....	3
B2.4 Truss Design Drawings Seal and Signature	4
B3 Responsibilities of Truss Manufacturer	4
B3.1 Truss Design Criteria and Requirements	4
B3.2 Communication to Truss Design Engineer	4
B3.3 Truss Placement Diagram.....	5
B3.4 Truss Submittal Package.....	5
B3.5 Reliance on Construction Documents.....	5
B4 Responsibilities of Building Designer / Registered Design Professional for the Building	5
B4.1 Preparation of Construction Documents.....	5
B4.2 Deferred Submittals.....	5
B4.3 Review Submittal Packages.....	5
B4.4 Required Information in Construction Documents	5
B4.5 Permanent Individual Truss Member Restraint / Bracing	6
B5 Responsibilities of Contractor.....	6
B5.1 Information Provided to Truss Manufacturer	6
B5.2 Information Provided to Building Designer / Registered Design Professional	7
B5.3 Truss Submittal Package Review.....	7
B5.4 Means and Methods	7
B5.5 Truss Installation.....	7
B5.6 Alterations to Trusses.....	7
B6 Design of Permanent Individual Truss Member Restraint / Bracing.....	7
