THE API COMPOSITE LIST

A Directory of API Certified Companies

www.api.org/compositelist

API Global Industry Services fill a vital role in the oil and natural gas industry. Every day, industry relies on equipment, products, and services approved by one of our Certification Programs. Our programs continue to grow, giving the industry a huge selection of quality products and services to choose from. We continue to introduce new programs as well, supporting the Institute's mission of adding value to the oil and natural gas industry.

The API Monogram Program was introduced in 1924, and today lists more than 3,500 licensed manufacturers of such diverse products as pipe, valves, wellheads, blowout preventers, cement, and cranes covering 75 API product specifications. Look for more API product specifications to join the program this year. The API Monogram Program is an international program with over 83 percent of licensees based outside of the United States. All licensed facilities, along with the products they are licensed for, are listed in this publication.

The API Quality Registrar (APIQR®) assists organizations in streamlining the maintenance of multiple management system requirements often required of manufacturers. An APIQR Dual Registered organization can meet both API Monogram and ISO 9001 requirements, reduce the total number of audits, trim redundancies, and increase efficiencies. 74 percent of APIQR's ISO 9001 clients are based outside of the United States, proving its strong support internationally.

APIQR also provides API Spec Q1® registration, an API management system registration for companies that produce API or non-API products for the oil and natural gas industry. And new for 2012, APIQR will offer API Spec Q2™ registration. Q2 was developed to provide QMS requirements for service supply companies.

Since a clean environment is important to everyone, APIQR offers environmental management system registration to ISO 14001. In addition, APIQR offers the ISO sector-specific management standard dedicated to the oil and natural gas industry, ISO/TS 29001. APIQR also offers OHSAS 18001, which is an international occupational health and safety management system certification. APIQR is the world's first and largest registrar to offer registration to oil and natural gas equipment manufacturers and service providers that are up to the challenge of meeting this new international standard.

The API Training Provider Certification Program (TPCP®) was developed to help users of industry training choose from the best. If you provide or use training based on API standards or recognized international standards, TPCP identifies those courses providing consistent quality and integrity. Training programs for all industry segments, including exploration and production, refining, pipelines, and marketing can participate in TPCP.

Finally, the API Perforator Design Registration Program strengthens the credibility of recorded and reported test data from the developers of Perforator System Designs. The program is based on test procedures found in API Recommended Practice 19B, Recommended Practice for Evaluation of Well Perforators.

All organizations registered to one or more of these API Certification Programs are listed in this publication.

Thank you for your continued support of our programs. Remember to look for the API Monogram and License Number when purchasing industry equipment.

With best regards,

John D. Modine
Director, Global Industry Services

The information in the API Composite List is updated daily at www.api.org/compositelist.

THE API COMPOSITE LIST

A Directory of API Certified Companies

www.api.org/compositelist

How to Use The API Composite List

The API Composite List has been compiled with the licensing, registration and product details of the organizations participating in the various API Certification Programs. This edition highlights the newest organizations participating in the API Certification Programs and those organizations that have ended their participation. This edition also lists API Monogram® Program Licensees, API Spec Q1® Registered Organizations, ISO 9001 Registered Organizations, ISO 14001 Registered Organizations, ISO/TS 29001 Registered Organizations, OHSAS 18001 Registered Organizations, Registered Perforator System Designs, as well as API Certified Training Providers.

Alphabetical List of New, Suspended and Cancelled Licenses and Registrations

Reference this section to find out which organizations have joined the API Certification Programs and to view organizations that have been cancelled or suspended within the last six months.

Alphabetical List of Licensed and Registered Organizations

Reference this section to find out which organizations are licensed to use the API Monogram on eligible equipment; organizations that are API Certified Training Providers; organizations that have attained API Spec Q1 Registration; organizations that have attained ISO 9001 Registration; organizations that have attained ISO 14001 Registration; organizations that have attained ISO/TS 29001 Registration; and organizations that have attained OHSAS 18001 Registration within the API Certification Programs.

Also, reference this section to view organizations that have registered Perforator Designs with API. **To view the specific registered designs, please visit our website at www.api.org/perforators.**

Alphabetical List of Active Licenses and Registrations

Reference this section to view the list of active license and registration numbers held by organizations which are licensed to use the API Monogram on eligible equipment; organizations that are API Certified Training Providers; organizations that have registered Perforator designs; organizations that have attained API Spec Q1 Registration; organizations that have attained ISO 9001 Registration; and organizations that have attained OHSAS 18001 Registration within the API Training and Certification Programs.

Classified Listing by API Specification and API Spec Q1, ISO 9001, ISO 14001, ISO/TS 29001 and OHSAS 18001 Registrations

Reference this section to view the list of organizations registered to API Monogram Specifications, API Spec Q1 Registration, ISO 9001 Registration, ISO 14001 Registration, ISO/TS 29001 Registration and OHSAS 18001 Registration.

IT'S A TOUGH BUSINESS. LOOK TO API.®

We've got some of the strongest training and certification programs on the planet. And that's a good thing.

API Monogram® Program

Every day, around the world, the oil and natural gas industry relies on equipment and products emblazoned with the API Monogram to get the job done right. Designed for manufacturers of production equipment, drilling equipment, and refinery equipment, the API Monogram Program lets companies show the world what they're made of.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: certification@api.org | www.api.org/monogram

ISO 9001 Registration Program

Global demands and an increasingly competitive business environment in the oil and natural gas industry have created new measures by which organizations must demonstrate their abilities. That's where the API Quality Registrar (APIQR®) can help. APIQR can register your company to ISO 9001 simply and conveniently.

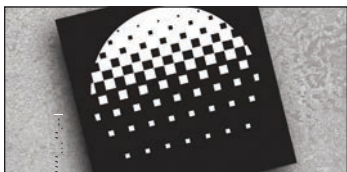

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: certification@api.org | www.api.org/apiqr

API Spec Q1® Program

Based on API's Spec Q1, *Specification for Quality Programs for the Petroleum, Petrochemical and Natural Gas Industry*, companies that either manufacture products to API specifications, or provide industry services not covered by an API standard, can apply for API Spec Q1 Registration. By meeting the additional quality system requirements of API Spec Q1 (beyond those outlined in ISO 9001), which are of particular interest to the oil and natural gas industry, companies become registered.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: certification@api.org | www.api.org/apiqr

ISO/TS 29001 Registration Program

This ISO sector-specific quality management standard is dedicated to the oil and natural gas industry. The standard is based on ISO 9001 and is identical to API Spec Q1, 8th Edition (less Annex A). APIQR is the world's first and largest registrar to offer registration to oil and natural gas equipment manufacturers and service providers that are up to the challenge of meeting this international standard.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: certification@api.org | www.api.org/apiqr

API QualityPlus® Registration Program

Many purchasers require ISO 9001 registration while others require API Spec Q1 Registration. Get both through one registrar and include ISO/TS 29001 Registration, the international quality management standard, with API QualityPlus. You can earn all three registrations in a simple, cost-effective manner because all three registrations are based on the ISO 9001 standard. You need only meet the additional requirements of API Spec Q1 and ISO/TS 29001 to be fully compliant.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: certification@api.org | www.api.org/apiqr

Dual Registration Program

For equipment manufactured under the API Monogram Program and ISO 9001, there's APIQR Dual Registration. This program awards API Monogram license(s) and ISO 9001 certificates to deserving companies. No one else can offer this service, anywhere. And more, if your quality management system is consistently applied to API Monogram and non-API Monogram equipment, API includes certificates for API Spec Q1 Registration and ISO/TS 29001 Registration free of charge.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: certification@api.org | www.api.org/apiqr

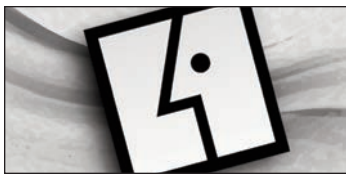

ISO 14001 EMS Registration Program

A clean environment is important to everyone. And the oil and natural gas industry is doing its part to keep its impact on land, air and water to a minimum. APIQR is pleased to offer environmental management system registration to ISO 14001. Our two-phased audit approach by experienced professionals provides an efficient and cost-effective vehicle for attaining this increasingly sought registration.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: certification@api.org | www.api.org/apiqr

Documents
Document Sharing Hub

API Training Provider Certification Program (TPCP®)

To ensure that training meets the high standards required by the oil and natural gas industry, API offers the Training Provider Certification Program (TPCP) to help out the best from the rest. To earn API's endorsement, training providers must meet TPCP's strict evaluation criteria while constructing and presenting the course.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: tpcp@api.org | www.api.org/tpcp

API Individual Certification Programs (ICP®)

API's Individual Certification Programs for Pressure Vessel Inspectors, Process Piping Inspectors, Aboveground Storage Tank Inspectors, Ultrasonic (UT) Examiners, Refractory Personnel, and Tank Entry Supervisors emphasize professional credibility and process integrity. They enable professionals to play an active role in improving industry health and safety, environmental performance, ensuring compliance and self-regulation, and strengthening management control and internal inspection capabilities.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8064 (Local and International)
Email: icp@api.org | www.api.org/icp

API Engine Oil Licensing and Certification System (EOLCS)

A cooperative effort between the oil and additive industries and vehicle and engine manufacturers, EOLCS is a licensing and certification program designed to help engine oil marketers show that their products meet strict performance requirements. Today's savvy consumers look for the API Service Symbol and Certification Mark when they buy engine oil.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: eolcs@api.org | www.api.org/eolcs

API Perforator Design Registration Program

API Perforator Design Registration strengthens the credibility of recorded and reported test data from producers of Perforator System Designs. The program is based on test procedures found in API Recommended Practice 19B, *Recommended Practice for Evaluation of Well Perforators*.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: perfdesign@api.org | www.api.org/perforators

API WorkSafe®

API has a way for operators to make sure their workers and contractors have been trained to industry safety standards. It's called API WorkSafe. It's two web-based programs that include training modules and qualification exams all based on API safety documents. The first program is for service station contractor personnel based on API Recommended Practice 1646. The second program is for E&P onshore operations workers and is based on the API E&P Onshore Operations Safety Handbook. When we all work together to improve safety, everybody works safe.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: APIWorkSafe@api.org | www.api.org/worksafe

API Diesel Exhaust Fluid Certification Program

To help consumers locate diesel exhaust fluid that meets diesel engine manufacturer requirements, API has established the Diesel Exhaust Fluid Certification Program, a program that certifies and monitors the quality of diesel exhaust fluid intended for use in SCR-equipped cars and trucks. Diesel exhaust fluid marketers that certify that they meet the performance requirements developed by diesel engine manufacturers may be licensed by API to display the API Diesel Exhaust Fluid Certification Mark. The Mark identifies fluids meeting the performance requirements for proper SCR operation.

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: apidef@api.org | www.apidef.org

API-U™

API-U is dedicated to providing excellence in petroleum industry training. Because API has access to the largest pool of subject experts in the industry, our programs are taught by the best trainers who utilize today's innovative methods. The practical knowledge gained from API-U training enables participants to maintain professional competency and meet ever-changing statutory requirements, as well as networking opportunities with your peers. Meeting your training needs in a creative, systematic, and cost-effective way is easy to accomplish with API-U.™

Sales: 877-562-5187 (Toll-free in the U.S. and Canada) • (+1) 202-682-8041 (Local and International)
Email: training@api.org | www.api.org/apiu

Work hard. Work smart. Work safe.

API has a way for operators to make sure their workers and contractors have been trained to industry safety standards. Workers and contractors who participate just may gain the competitive edge they've been looking for.

It's called API WorkSafe®. API WorkSafe is a web-based program that includes training modules and a qualification exam all based on API safety documents. Applicants who pass the exam receive a Safety Key wallet card with a unique personal identification code that operators can use to verify qualification online or by phone.

The first program offered by API WorkSafe is a service station contractor safety qualification program that identifies contractor personnel who have passed a standardized examination covering the latest service station industry safety practices, based on API Recommended Practice 1646.

The second program offered by API WorkSafe is for workers on an E&P onshore operations site. It provides training on key safety issues found at onshore job sites and includes an examination covering industry safety practices, based on the API E&P Onshore Operations Safety Handbook.

When we all work together to improve safety, everybody works safe.
