

STANDARDS AUSTRALIA

Amendment No. 1
to
AS 2805.6.1.1—2009
Electronic funds transfer—Requirements for interfaces
Part 6.1.1: Key management—Principles

REVISED TEXT

The 2009 edition of AS 2805.6.1.1 is amended as follows; the amendments should be inserted in the appropriate places.

SUMMARY: This Amendment applies to the front cover, title page, Preface and Appendix ZZ (new).

Published on 29 June 2011.

AMDT
No. 1
JUN
2011

Front cover

- 1 *Delete* the designation 'ISO 11568-1:2005'.
- 2 *Add* '(ISO 11568-1:2005, MOD)' to the Part title.

AMDT
No. 1
JUN
2011

Title page

Add '(ISO 11568-1:2005, MOD)' to the Part title.

AMDT
No. 1
JUN
2011

Preface

Delete the third paragraph and *replace* with the following:

This Standard is an adoption with national modifications and has been reproduced from ISO 11568-1:2005, *Banking—Key management (retail)—Part 1: Principles*. Variations to ISO 11568-1:2005 for application of this Standard in Australia are set out in Appendix ZZ following the source text.

Appendix ZZ (new)

Add the following Appendix after Annex C:

APPENDIX ZZ
VARIATIONS TO ISO 11568-1:2005 FOR AUSTRALIAN CONDITIONS
(Normative)

ZZ1 INTRODUCTION

This Appendix sets out variations to ISO 11568-1:2005 for the application of this Standard in Australia. The purpose of the variation is to provide an extension to Clause 9.6 (Key Management Services for Cryptosystems—Integrity) and identify some techniques to protect the key.

ZZ2 VARIATIONS

The variations are as follows:

- Clause 9.6 *Add the following paragraph:*
- The integrity of a key shall be protected using techniques such as—
- (a) digital signatures;
 - (b) MACs; and
 - (c) key block binding methods.
-
