

Australian Standard[®]

**ELECTRIC CABLES—
LEAD AND LEAD ALLOY
SHEATHS—
COMPOSITION**

This Australian standard was prepared by Committee EL/3, Electric Wires and Cables. It was approved on behalf of the Council of the Standards Association of Australia on 7 July 1976 and published on 5 September 1986.

The following interests are represented on Committee EL/3:

Australian Electrical and Electronic Manufacturers Association
Confederation of Australian Industry
Department of Aviation
Department of Defence
Department of Industrial Relations (New South Wales)
Electrical Contractors Associations of Australia
Electrical Regulatory Authorities
Electrical Supply Association of Australia
Electrical Testing Laboratories
Railways of Australia Committee
Telecom Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
