Australian Chamber of Manufactures
Australian Institute of Loss Adjusters
Bureau of Meteorology (Australia)
Department of Land and Water Conservation, N.S.W.
Department of Local Government and Planning, Qld
Local Government Office, Tas.
Master Builders Australia
Master Plumbers and Mechanical Services Association of Australia
Master Plumbers Australia
Metal Building Products Manufacturers Association (Australia)
New Zealand Local Government Association
New Zealand Manufacturers Federation
New Zealand Water and Wastes Association
Plastics and Chemical Industries Association (Australia)
Plastics Institute of New Zealand
Plumbing Industry Board, Victoria
University of Technology, Sydney
Department of Administrative Services—Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 96170.

Australian Standard™

National plumbing and drainage

Part 3.1: Stormwater drainage— Performance requirements

Originated in part as part of AS CS3—1931.
Previous editions AS 2180—1986 and AS 3500.3—1990.
AS 2180—1986 and AS 3500.3—1990 revised, amalgamated
and redesignated in part as AS 3500.3.1—1998.
