

Australian Standard[®]

**Powered rotary lawnmowers—
Blades and blade mounting
attachments**

[Defence Title allocated by Codification and Standardisation
Authority: BLADE SETS FOR ROTARY MOWERS
NATO Supply Classification 3750]

This Australian Standard was prepared by Committee CS/33, Power Lawnmowers and Edge Trimmers. It was approved on behalf of the Council of Standards Australia on 27 May 1993 and published on 13 September 1993.

The following interests are represented on Committee CS/33:

Australian Chamber of Commerce and Industry
Australian Federation of Consumer Organizations
Australian Power Equipment After Market Association
Department of Consumer Affairs, N.S.W.
Department of Public and Consumer Affairs, S.A.
Federal Bureau of Consumer Affairs
Local Government Association of New South Wales
Metal Trades Industry Association of Australia
Mower Specialists Association of Australia
Outdoor Power Equipment Association
The WorkCover Authority, N.S.W.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92079.
