

Australian Standard[®]

**Mineral wool thermal insulation—
Batt and blanket**

This Australian Standard was prepared by Committee BD/58, Thermal Performance and Insulation of Dwellings. It was approved on behalf of the Council of Standards Australia on 21 July 1989 and published on 9 February 1990.

The following interests are represented on Committee BD/58:

Acceptable Standards of Construction Committee, New South Wales
Aluminium Development Council
Association of Municipal Electricity Authorities, Victoria
Australian Cellulose Insulation Manufacturers' Association
Australian Federation of Consumer Organizations
Australian Institute of Building
Australian Institute of Refrigeration, Air Conditioning and Heating
Australian Uniform Building Regulations Coordinating Council
Business and Consumer Affairs, New South Wales
Clay Brick and Paver Institute
CSIRO, Division of Building, Construction and Engineering
Construction and Housing Association, Australia
Department of Administrative Services—Australian Construction Services
Department of Industry, Technology and Resources, Victoria
Department of Mines and Energy, South Australia
Fibreglass and Rockwool Insulation Manufacturers' Association of Australia
Hydro-Electric Commission, Tasmania
Ministry of Housing and Construction, Victoria
National Building Technology Centre
Plastics Industry Association
Thermal Insulation Contractors' Association, New South Wales
University of Adelaide
University of Melbourne
Victorian Solar Energy Council

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 77171.
