

Australian Standard[®]

Powered walk-behind and hand-held lawn trimmers and lawn edge trimmers—Mechanical safety requirements and test methods

This Australian Standard was prepared by Committee CS/33, Power Lawnmowers and Edge Trimmers. It was approved on behalf of the Council of Standards Australia on 21 July 1992 and published on 16 November 1992.

The following interests are represented on Committee CS/33:

Australian Federation of Consumer Organizations
Business and Consumer Affairs, N.S.W.
Confederation of Australian Industry
Department of Public and Consumer Affairs, S.A.
Federal Bureau of Consumer Affairs
Local Government Association of New South Wales
Metal Trades Industry Association of Australia
Mower Specialists Association of Australia
National Safety Council of Australia (Federal Secretariat)
Outdoor Power Equipment Association
The WorkCover Authority, N.S.W.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

Australian Standard[®]

Powered walk-behind and hand-held lawn trimmers and lawn edge trimmers—Mechanical safety requirements and test methods

First published as AS 4057—1992.

PUBLISHED BY STANDARDS AUSTRALIA
(STANDARDS ASSOCIATION OF AUSTRALIA)

PREFACE

This Standard was prepared by the Standards Australia Committee on Power Lawnmowers and Edge Trimmers. It is identical with and has been reproduced from ISO 10518:1991, *Powered walk-behind and hand-held lawn trimmers and lawn edge trimmers—Mechanical safety requirements and test methods*.

Of the organizations represented on the Committee, the Australian Federation of Consumer Organizations did not agree to the publication of this Standard. The Australian Federation of Consumer Organizations had concerns about the battery stowage requirements, the marking of controls and the determination of the permissible kinetic energy of the cutting element.

Under arrangements made between Standards Australia and the International Standards bodies, ISO and IEC, as well as certain other Standards organizations, users of this Australian Standard are advised of the following:

- (a) Copyright is vested in Standards Australia.
- (b) The number of this Standard is not reproduced on each page; its identity is shown only on the cover and title pages.
- (c) There may be occasional dual language sections, but English is always one of the languages reproduced.
- (d) Where any cross-references to page numbers appear within the text, these relate to page numbering in the International Standard and are to be disregarded.

For the purpose of this Australian Standard, the ISO text should be modified as follows:

- (i) Substitute a full point for a comma as a decimal point.
- (ii) Replace the reference to another publication with reference to an Australian Standard as follows:

<i>Reference to International Standard</i>		<i>Australian Standard</i>	
IEC		AS	
335	Safety of household and similar electrical appliances		
335.1	Part 1: General requirements	3100	Approval and test specification—General requirements for electrical equipment
		3156	Approval and test specifications—Electric lawnmowers
		3300	Approval and test specification—General requirements for household and similar electrical appliances
ISO			
5395	Power lawnmowers, lawn tractors, lawn and garden tractors, professional mowers, and lawn and garden tractors, with moving attachments—Definitions, safety requirements and list procedures	2657	Powered rotary lawnmowers

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.
