

AS 4070—1992

Reconfirmed 2015

Australian Standard[®]

**Recommended practices for
protection of low-voltage electrical
installations and equipment in
MEN systems from transient
overvoltages**

This Australian Standard was prepared by Committee EL/7, Power Switchgear. It was approved on behalf of the Council of Standards Australia on 17 August 1992 and published on 12 October 1992.

The following interests are represented on Committee EL/7:

Australian-British Chamber of Commerce
Australian Electrical and Electronic Manufacturers Association
Confederation of Australian Industry
Electrical Supply Association of Australia
Institution of Engineers, Australia
Railways of Australia Committee
Testing authorities
The Workcover Authority of New South Wales

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 90089.

RECONFIRMATION

OF

AS 4070—1992

**Recommended practices for protection of low-voltage electrical installations and
equipment in MEN systems from transient overvoltages**

RECONFIRMATION NOTICE

Technical Committee EL-007 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Reconfirmed documents cannot be amended, but may be formally revised and a new edition published.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 18 May 2015.

Reconfirmed documents cannot be amended, but may be formally revised and a new edition published.

The following are represented on Technical Committee EL-007:

Ausgrid
Australian Industry Group
Energy Networks Association
Engineers Australia
The University of New South Wales
