

Australian Standard<sup>®</sup>

---

## **Windows—Methods of test**

### **Part 0: General introduction and list of methods**

---

This Australian Standard was prepared by Committee BD/21, Windows. It was approved on behalf of the Council of Standards Australia on 15 May 1996 and published on 5 August 1996.

---

The following interests are represented on Committee BD/21:

Aluminium Development Council  
Architectural Aluminium Association of New Zealand  
Architectural Aluminium Fabricators Association  
Australian Building Codes Board  
Construction Industry Engineering Services Group  
Flat Glass Council of Australia  
Housing Industry Association  
Master Builders Australia  
Metal Trade Industry Association of Australia  
Plastics and Chemicals Industry Association  
Residential Window Association  
University of New South Wales

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This Standard was issued in draft form for comment as DR 95153.*

First published as AS 4420.0—1996.
