STANDARDS  
Australia

# Essential oil of spike lavender (*Lavandula latifolia* Medikus), Spanish type (ISO 4719:2012, IDT)

AS 5029:2024

This Australian Standard ® was prepared by CH-021, Essential Oils. It was approved on behalf of Standards Australia's Standards Development and Accreditation Committee on 08 August 2024.

This Standard was published on 13 September 2024.

The following are represented on Committee CH-021:

Accord Australasia  
Australian Society of Cosmetic Chemists  
Australian Tea Tree Industry Association  
Essential Oil Producers Association of Australia  
Southern Cross University

This Standard was issued in draft form for comment as DR AS 5029:2023.

## Preface

This Standard was prepared by the Standards Australia Committee CH-021, Essential Oils, to supersede AS 5029:2002, *Oil of spike lavender [Lavandula latifolia (L.f.) Medikus], Spanish type*.

The objective of this document is to specify certain characteristics of the essential oil of spike lavender (*Lavandula latifolia* Medikus), Spanish type, in order to facilitate assessment of its quality.

This document is identical with, and has been reproduced from, ISO 4719:2012, *Essential oil of spike lavender (Lavandula latifolia Medikus), Spanish type*.

As this document has been reproduced from an International document, the following apply:

- (a) In the source text “this International Standard” should read “this document”.
- (b) A full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms “normative” and “informative” are used in Standards to define the application of the appendices or annexes to which they apply. A “normative” appendix or annex is an integral part of a Standard, whereas an “informative” appendix or annex is only for information and guidance.
