Aromatic natural raw materials — Vocabulary

AS ISO 9235:2023

This Australian Standard ® was prepared by CH-021, Essential Oils. It was approved on behalf of the Council of Standards Australia on 23 October 2023.

This Standard was published on 24 November 2023.

The following are represented on Committee CH-021:

- Accord Australasia
- Australian Lavender Growers Association
- Australian Society of Cosmetic Chemists
- Australian Tea Tree Industry Association
- Essential Oil Producers Association of Australia
- Southern Cross University

This Standard was issued in draft form for comment as DR AS ISO 9235:2023.

Preface

This Standard was prepared by the Standards Australia Committee CH-021, Essential Oils.

The objective of this document is to specify the terms and definitions relating to aromatic natural raw materials.

This document is identical with, and has been reproduced from, ISO 9235:2021, *Aromatic natural raw materials — Vocabulary*.

As this document has been reproduced from an International document, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 54, *Essential oils*, in collaboration with the European Committee for Standardization (CEN) Technical Committee CEN/SS C01, *Food Products*, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).

This third edition cancels and replaces the second edition (ISO 9235:2013), which has been technically revised. It also incorporates Technical Corrigendum ISO 9235:2013/Cor 1:2014.

The main changes to the previous edition are as follows:

- modification of the definition in [3.13](#);
- addition of [3.19](#).

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.
