Australian/New Zealand Standard®

Paints and related materials—Methods of test

Method 103.1: Examination and preparation of samples for testing

PREFACE

This Standard was prepared by the Joint Standards Australia/New Zealand Committee CH/3 on Paints and Related Materials. It is issued as a Joint Standard under the terms of the Active Cooperation Agreement between Standards Australia and Standards New Zealand.

This Standard is identical with and has been reproduced from ISO 1513:1992, *Paints and varnishes—Examination and preparation of samples for testing*.

Technical Corrigendum 1 has been bound at the back of this Standard. Text affected by this Corrigendum is marked by a marginal bar.

The objective of this Standard is to specify procedures for preparing samples for preliminary examination and testing. It is a revision of the 1980 edition of AS 1580.103.1, *Methods of test paints and related materials*, Method 1580.103.1: *Preliminary examination and preparation for testing*, based on international Standards.

For the purpose of this Standard, the text of ISO 1513 should be modified as follows:

(a) *Terminology* The words 'this Australian/New Zealand Standard' should replace the words 'this International Standard' wherever they appear.

(b) *Decimal marker* Substitute a point (.) for a comma (,) wherever it appears as a decimal marker.

(c) *References* The references to International Standards should be replaced by Australian Standards and additional references inserted as follows:

Reference to International Standard		*Australian Standard*
