

STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Amendment No. 1
to
AS/NZS 3350.2.41 :1997
Safety of household and similar electrical appliances
Part 2.41: Particular requirements—Pumps for liquids having a temperature not exceeding 35°C

REVISED TEXT

The 1997 edition of AS/NZS 3350.2.41 is amended as follows; the amendments should be inserted in the appropriate places.

SUMMARY: This Amendment applies to the Cover Page, Preface, Title Page and Clause 25.7 and Annex ZZ.

Published on 5 April 2001.

Approved for publication in New Zealand on behalf of the Standards Council of New Zealand on 4 July 2000.

Cover Page

From the title *delete* 'Approval and test specification—'.

This Amendment forms part of the Standard on publication.

Page ii Preface

Delete the fourth paragraph and *replace* with the following:

This Standard is technically equivalent to and has been reproduced from the second edition of IEC 60335-2-41:1996, *Safety of household and similar electrical appliances*, Part 2-41; *Particular requirements for pumps for liquids having a temperature not exceeding 35°C*. It is to be used in conjunction with the latest edition of AS/NZS 3350.1 *Safety of household and similar electrical appliances*, Part 1: *General requirements* and its Amendments. It was established on the basis of AS/NZS 3350.1:1994.

This Amendment forms part of the Standard on publication.

Title Page

From the title *delete* 'Approval and test specification—'

This Amendment forms part of the Standard on publication.

Page 12 Annex ZZ

Delete the addition in the variation for Clause 25.7 and *replace* with the following variation:

25.7 Addition

For **pumps** intended for use in swimming pools and **submersible pumps** intended for use outdoors, the **supply cord** shall be polychloroprene sheathed or equivalent synthetic elastomer and be not lighter than heavy polychloroprene sheathed flexible cord (code designation 245 IEC 66). For other **pumps** intended for use outdoors, the **supply cord** shall be not lighter than heavy duty PVC cord complying with AS/NZS 3191. However, **fixed pumps** having a **rated power input** not exceeding 1 kW and **portable pumps** not exceeding 5 kg may be fitted with ordinary PVC-sheathed flexible cord (code designation 227 IEC 53).

NOTE: The mass of the **pump** is determined without water in the pump and without the **supply cord**.

For **submersible pumps** intended for indoor use, except table fountain **pumps** and aquarium **pumps**, the **supply cord** shall be not lighter than ordinary polychloroprene sheathed flexible cord (code designation 245 IEC 57).

This Amendment forms part of the Standard on publication.
