

Australian/New Zealand Standard

Rubber and plastics—Analysis of multi-peak traces obtained in determinations of tear strength and adhesion strength

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee ME/56, Automotive Tyres. It was approved on behalf of the Council of Standards Australia on 17 August 1993 and on behalf of the Council of Standards New Zealand on 12 November 1993. It was published on 15 November 1993.

The following interests are represented on Committee ME/56:

Australia Post
Australian Automobile Association
Australian Consumers Association
Australian Chamber of Commerce and Industry
Australian Federation of Consumer Organizations
Australian Tyre Manufacturers Association
Department of Consumer Affairs, N.S.W.
Department of Transport and Communications, Australia
Federal Chamber of Automotive Industries, Australia
Institute of Automotive Mechanical Engineers, Australia
Motor Traders Association of New South Wales
Motor Trades Association of Australia
New Zealand Automotive Component Manufacturers Federation
New Zealand Tire Retreaders Association
Railways of Australia Committee
Service Station Association of New South Wales
State Transport Authority, S.A.
Telecom Australia
The Commercial Vehicle Industry Association of Australia
Tyre and Rim Association of Australia

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92204.
