This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee IT/1, Information Systems—Interconnection. It was approved on behalf of the Council of Standards Australia on 22 September 1993 and on behalf of the Council of Standards New Zealand on 22 April 1993. It was published on 20 December 1993.

The following interests are represented on Committee IT/1:

Australian Association of Permanent Building Societies
 Australian Bankers Association
 Australian Bureau of Statistics
 Australian Chamber of Commerce and Industry
 Australian Committee of Directors and Principals
 Australian Computer Society
 Australian Computer Users Association
 Australian Information Industry Association
 Australian Telecommunications Users Group
 Australian Vice Chancellors Committee
 Department of Defence, Australia
 Department of Industry, Technology and Commerce, Australia
 Information Exchange Steering Committee, Australia
 Institute of Information and Communication Technologies, CSIRO, Australia
 Life Insurance Federation of Australia
 OPTUS Communications, Australia
 Telecom Australia

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Standard was prepared by the Joint Australia/New Zealand Standards Committee IT/1 on Information Systems—Interconnection. It is identical with, and has been reproduced from, ISO/IEC 9834-4:1991, *Information technology—Open Systems Interconnection—Procedures for the operation of OSI Registration Authorities, Part 4: Register of VTE Profiles*.

This Joint Standard is one of a series of Open Systems Interconnection (OSI) Standards which are currently under development. Since OSI Standards are developmental, there may be some minor difficulties encountered in their implementation. For this reason, Standards Australia will be providing, through the OSI Help Desk, a service to coordinate and disseminate information concerning difficulties which are identified in using this Joint Standard.

Under arrangements made between Standards Australia/Standards New Zealand and the international Standards bodies, ISO and IEC, as well as certain other Standards organizations, users of this Joint Standard are advised of the following:

- (a) In Australia, copyright is vested in Standards Australia. In New Zealand, copyright is vested in Standards New Zealand.
- (b) The number of this Joint Standard is not reproduced on each page; its identity is shown only on the cover and title pages.

For the purpose of this Joint Standard, the ISO/IEC text should be modified as follows:

- (i) *Terminology* The words ‘Australian Standard’, ‘New Zealand Standard’ or ‘Joint Australian/New Zealand Standard’ should replace the words ‘International Standard’ wherever they appear.
- (ii) *References* The references to International Standards should be replaced by references to the following Australian/New Zealand Standards:

Reference to International Standard or other Publication		Australian/New Zealand Standard
