

Australian/New Zealand Standard

Pliable building membranes and underlays—Methods of test

Part 0: General introduction and list of methods

AS/NZS 4201.0:1994

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee BD/48, Pliable Building Membranes. It was approved on behalf of the Council of Standards Australia on 27 April 1994 and on behalf of the Council of Standards New Zealand on 16 May 1994. It was published on 14 June 1994.

The following interests are represented on Committee BD/48:

Aluminium Development Council, Australia
Auckland Manufacturers Association
Australian Building Codes Board
Australian Institute of Building
Australian Institute of Refrigeration, Air Conditioning and Heating
Building Research Association of New Zealand
Concrete Roof Tile Manufacturers Association of Australia
CSIRO—Division of Building Construction & Engineering
Fibreglass and Rockwool Insulation Manufacturers Association of Australia
Housing Industry Association, Australia
Master Builders Australia
New Zealand Manufacturers Federation
New Zealand manufacturing interests
Plastics Industry Association, Australia
Royal Melbourne Institute of Technology
Victorian Roofing Tile Association

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 93186.
