

STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Amendment No. 1
to
AS/NZS 4782.2:2004
Double-capped fluorescent lamps—Performance specifications
Part 2: Minimum Energy Performance Standard (MEPS)

REVISED TEXT

The 2004 edition of AS/NZS 4782.2 is amended as follows; the amendments should be inserted in the appropriate places.

SUMMARY: This Amendment applies to the Preface, Clauses 1.3, 1.4, 1.5.1, 1.5.6, 1.5.7, 2.5, and Appendices A and B.

Published on 16 May 2006.

Approved for publication in New Zealand on behalf of the Standards Council of New Zealand on 13 April 2006.

Page 2 Preface

In the second paragraph:

1. *Delete* the introductory phrase and *replace* with the following:
The objective of this part of the Standard AS/NZS 4782.2 is threefold:
2. *Add* a new list item after Item (b):
(c) To specify maximum permissible quantity of mercury present in fluorescent lamps.

Page 2 Preface

In the third paragraph:

1. *Delete* the introductory phrase and *replace* with the following:
This Standard when complete will consist of the following parts:
 2. *Add* the following reference and accompanying note:
4782.3 Part 3: Procedure for quantitative analysis of mercury present in fluorescent lamps
NOTE: AS/NZS 4782.3 is an interim Standard that will be reviewed 2 years from publication.

Page 2 Preface

Delete the fifth paragraph and *replace* with the following:

This Standard is published with the approval of the combined state and territory regulatory authorities and is structured to be suitable for reference in legislation calling up Minimum Energy Performance Standards and also for reference in energy labelling regulatory legislation. It refers to AS/NZS 4782.1 and AS/NZS 4782.3 for test procedures. The requirement of mercury content is intended to eventually harmonize with the EU directive 2002/95/EC, on 'Restrictions of the use of Hazardous Substances (ROHS)' in electrical and electronic equipment.

Insert a new paragraph after the fifth Paragraph:

Amendment 1 will come into effect on the date of publication.

Page 4 Clause 1.3

Delete the text of this Clause and *replace* with the following:

This Standard shall be read in conjunction with AS/NZS 4782.1 and AS/NZS 4782.3 respectively.

This Amendment forms part of the Standard on publication.

Page 5 Clause 1.4

Under referenced 'AS/NZS' Standards, *add* the following:

4782.3 Part 3: Procedure for quantitative analysis of mercury present in fluorescent lamps

This Amendment forms part of the Standard on publication.

Page 5 Clause 1.5.1

After the first paragraph, *add* the following new paragraph:

A further test in accordance with AS/NZS 4782.3 to verify the quantity of mercury present in each fluorescent lamp.

This Amendment forms part of the Standard on publication.

Page 5 Clause 1.5.6

Add the following note after the first paragraph:

NOTE: Readers are advised to contact the State energy regulators for the purposes of registration of family of models.

This Amendment forms part of the Standard on publication.

Page 5 Clause 1.5.7

Delete the text of this Clause and *replace* with the following:

Quantities used in this Standard shall be measured during tests carried out in accordance with AS/NZS 4782.1 and AS/NZS 4782.3.

This Amendment forms part of the Standard on publication.
