

STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Amendment No. 1
to
AS/NZS 5815.2:2013
Information technology equipment—Energy performance of computer monitors
Part 2: Minimum energy performance standards (MEPS) and energy rating labels

REVISED TEXT

The 2013 edition of AS/NZS 5815.2 is amended as follows; the amendments should be inserted in the appropriate places.

SUMMARY: This Amendment applies to the Preface, Foreword (new), Clauses 1.1 and 1.4, and Section 5 (new).

Published on 23 January 2014.

Approved for publication in New Zealand on behalf of the Standards Council of New Zealand on 12 December 2013.

Preface

- 1 *Delete* the third paragraph and *replace* with the following:

The energy labelling and MEPS requirements set out in the legislative instruments for computer monitors came into force in Australia and New Zealand on 1 October 2013.

- 2 *Delete* the fourth and fifth paragraphs.

- 3 *Delete* the seventh paragraph and *replace* with the following:

This series consists of the following parts:

Foreword (new)

Add the following new Foreword after the table of contents and before Section 1:

FOREWORD

In Australia, specific product requirements are set out in a legislative instrument called the Greenhouse and Energy Minimum Standards (Computer Monitors) Determination. The Determination may contain different requirements to those specified in this Standard and, if any conflict arises, the Determination takes precedence over this Standard.

All computer monitors within the scope of the Determination that are supplied, offered for supply, or commercially used in Australia are required by the Determination to be registered, unless they are covered by the grandfathering provisions of the *Greenhouse and Energy Minimum Standards Act 2012*; this will, in general, be products that met the legal requirements in place at the time that they were manufactured or imported, but do not meet the requirements of the current Determination. Section 5 of this Standard specifies registration requirements; however, it should be noted that the approved application form may contain different requirements to those specified in Section 5. Further information and the latest version of the Determination are available on the Energy Rating website: <http://www.energyrating.gov.au>.

In New Zealand, requirements from this Standard have been incorporated by reference into New Zealand regulations. Specific details may be obtained from the Energy Rating website: <http://www.energyrating.gov.au>, and the Energy Efficiency and Conservation (EECA) website: <http://www.eeca.govt.nz>.

Section 5 (new)

Add the following new Section after Section 4 and before Appendix A.

SECTION 5 APPLICATION FOR REGISTRATION AND TEST RESULT FORMAT

5.1 APPLICATION FOR REGISTRATION

Where the Australian Greenhouse and Energy Minimum Standards (GEMS) regulator requires registration or approval of energy performance labelling or minimum energy performance standard requirements, Clause 5.2 shall apply. For registration in New Zealand, Clause 5.3 shall apply.

Further details can be found on the Energy Rating website: <http://www.energyrating.gov.au>.

5.2 REGISTRATION IN AUSTRALIA

5.2.1 Prescribed form

Registration applications shall be submitted online to the Australian GEMS Regulator; details on how to submit an application can be found at <http://www.energyrating.gov.au>. An application for registration of a computer monitor, in the format shown in Appendix A, shall be submitted along with a copy of the Energy Rating Label for the model being registered.

5.2.2 Test report and format

Where required, test reports shall be submitted with the application for registration.

NOTE: Test reports may be in accordance with Appendix C.

5.2.3 Availability of records

Records shall be made available to the Australian GEMS regulator upon request, within 14 days of a notice being given or within such longer period as specified in the notice. Records shall be retained for at least five years after the last date of manufacture if the item is made in Australia or for at least five years after the last date of import if the item is imported into Australia.
