

STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

**Amendment No. 1
to
AS/NZS 60335.2.26:2006
Household and similar electrical appliances - Safety –
Part 2.26: Particular requirements for clocks**

REVISED TEXT

The 2006 edition of AS/NZS 60335.2.26 is amended as follows; the amendments should be inserted in the appropriate places.

SUMMARY: This amendment applies to Cover Page, Foreword, Introduction and Clauses 1, 21 and Annex ZZ and the Bibliography.

Published on 29 May 2009

Approved for publication in Australia on behalf of the Council of Standards Australia on 17 March 2009

Approved for publication in New Zealand by the Standards Council of New Zealand on 13 March 2009

This amendment takes effect from the date of publication.

COVER PAGE

Replace Ed 4 by Ed 4.1 in two places.

FOREWORD

Replace the third paragraph by the following:

This Standard is an adoption with national modifications and contains the full text of the fourth edition of IEC 60335-2-26, *Household and similar electrical appliances – Safety - Part 2-26: Particular requirements for clocks* and its amendment 1 (2008) and has been varied as indicated to take account of Australian and New Zealand conditions. It is to be used in conjunction with the latest edition of AS/NZS 60335.1, *Household and similar electrical appliances – Safety - Part 1: General requirements* and its Amendments. It was established on the basis of AS/NZS 60335.1:2002.

In the seventh paragraph replace -26 by -26 Ed 4.1.

In the penultimate paragraph replace -26 by -26 Ed 4.1.

In the last paragraph replace Ed 4 by Ed 4.1. and “Australian” by “Australian and New Zealand”

INTRODUCTION

Replace the fifth paragraph by the following:

ISBN 0-7337-9080-1

When a part 2 standard does not include additional requirements to cover hazards dealt with in Part 1, Part 1 applies.

NOTE 1 This means that the technical committees responsible for the part 2 standards have determined that it is not necessary to specify particular requirements for the appliance in question over and above the general requirements.

This standard is a product family standard dealing with the safety of appliances and takes precedence over horizontal and generic standards covering the same subject.

NOTE 2 Horizontal and generic standards covering a hazard are not applicable since they have been taken into consideration when developing the general and particular requirements for the IEC 60335 series of standards. For example, in the case of temperature requirements for surfaces on many appliances, generic standards, such as ISO 13732-1 for hot surfaces, are not applicable in addition to Part 1 or part 2 standards.

1 Scope

Replace the two dashed items in the third paragraph by the following:

- persons (including children) whose
 - physical, sensory or mental capabilities; or
 - lack of experience and knowledgeprevents them from using the appliance safely without supervision or instruction;
- children playing with the appliance.

21 Mechanical strength

Replace “Modification:” by “21.1 Modification:”

Annex ZZ

In the title replace “-26” by “-26 Ed 4.1”

In the first paragraph replace “Ed 4” by “Ed 4.1” and “Australia” by “Australia and New Zealand”

Bibliography

Replace the text by the following:

The bibliography of Part 1 is applicable except as follows.

Addition:

ISO 13732-1	<i>Ergonomics of the thermal environment – Methods for the assessment of human responses to contact with surfaces – Part 1: Hot surfaces</i>
