Australian/New Zealand Standard™

Ophthalmic optics — Contact lenses and contact lens care products — Fundamental requirements

AS/NZS ISO 14534:2023

This Joint Australian/New Zealand Standard™ was prepared by Joint Technical Committee MS-024, Optics and Ophthalmics. It was approved on behalf of the Council of Standards Australia on 16 March 2023 and by the New Zealand Standards Approval Board on 05 April 2023.

This Standard was published on 21 April 2023.

The following are represented on Committee MS-024:

- Australian Dispensing Opticians Association
- Cornea & Contact Lens Society of Australia
- Medical Technology Association of Australia
- New Zealand Association of Optometrists
- Optical Distributors and Manufacturers Association of Australia
- Optometrists and Dispensing Opticians Board
- Optometry Australia
- Queensland University of Technology
- University of Auckland (New Zealand)
- University of Canberra
- University of Melbourne
- University of New South Wales

This Standard was issued in draft form for comment as DR AS/NZS ISO 14534:2022.

Preface

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee MS-024, Optics and Ophthalmics.

The objective of this document is to specify safety and performance requirements for contact lenses, contact lens care products, and other accessories for contact lenses.

This document does not specify electrical safety and electromagnetic compatibility considerations that might arise from the use of electrical equipment in conjunction with contact lenses or contact lens care products.

This document is identical with, and has been reproduced from, ISO 14534:2011, *Ophthalmic optics — Contact lenses and contact lens care products — Fundamental requirements*.

As this document has been reproduced from an International document, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms “normative” and “informative” are used in Standards to define the application of the appendices or annexes to which they apply. A “normative” appendix or annex is an integral part of a Standard, whereas an “informative” appendix or annex is only for information and guidance.

Contents

Preface	ii
National Foreword	iv
Foreword	v
Introduction	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Safety and performance	2
5 Risk assessment	2
6 Design	3
7 Materials	3
8 Clinical evaluation	3
9 Manufacturing	3
10 Microbiological requirements	3
10.1 Contact lenses	3
10.1.1 Lenses delivered sterile	3
10.1.2 Lenses delivered non-sterile	4
10.1.3 Trial lenses	4
10.2 Contact lens care products	4
10.3 Other accessories for contact lenses	4
