Déclaration REACH Article 33

0 Foreword

REACH regulation concerning the Registration, Evaluation and Authorization of Chemicals, entered into force on 1 June 2007.

Among the obligations it imposes, via Article 33.1 of REACH, to convey to the recipient of the article, information on substances contained therein.

The purpose of this recommendation is to define a single document for the supply chain to meet REACH Article 33.1:

“Duty to communicate information on substances in articles: Any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59, paragraph 1, in a concentration above 0,1 % weight/weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance.”

In order to be able to harmonize the information to be provided under this obligation, this Recommendation defines necessary and sufficient information expected by all Suppliers and proposes a framework allowing to have a unique form thus ensuring consistency of supply chain.

This document is not intended to meet the other requirements of REACH.

1 Scope

This recommendation:

- proposes the model of REACH Article 33 declaration;
- provides the essential rules for filling out the model of REACH Article 33 declaration;
- offers tips that can guide the drafting of REACH Article 33 declaration;
- does not address the terms of the statement distribution (conditions, frequency, format, ...);
- does not address issues of configuration management and traceability;
- does not address the problems of obsolescence associated with non authorizations or restrictions on use of substances.
