# **Guidance on Industry Standard for Steam Surface Condensers**

---

**GIS 26-106**

---

**BP GROUP**  
**ENGINEERING TECHNICAL PRACTICES**

## Foreword

This is the first issue of Engineering Technical Practice (ETP) BP GIS 26-106. This Guidance on Industry Standard (GIS) is based on parts of heritage documents from the merged BP companies as follows:

### Amoco

A FE-HE-SSC-P

Fabricated Equipment—Heat Exchangers—Steam Surface Condensers-  
Procurement Specification.

## Table of Contents

|                                                        | Page |
|--------------------------------------------------------|------|
| 1. Scope .....                                         | 3    |
| 2. Normative references.....                           | 3    |
| 3. Definitions.....                                    | 3    |
| 4. General.....                                        | 3    |
| 5. Proposals.....                                      | 3    |
| 5.1. Purchasers responsibilities .....                 | 3    |
| 5.2. Vendor's responsibilities .....                   | 3    |
| 6. Drawing and other required data.....                | 3    |
| 6.1. Outline drawings .....                            | 3    |
| 6.2. Information required after drawings reviewed..... | 3    |
| 6.3. Reports and records .....                         | 3    |
| 7. Design .....                                        | 3    |
| 7.1. General.....                                      | 3    |
| 7.2. Materials .....                                   | 3    |
| 7.3. Mechanical details .....                          | 3    |
| 8. Venting equipment.....                              | 3    |
| 9. Inspection and testing.....                         | 3    |
| 9.1. Quality assurance .....                           | 3    |
| 9.2. Hydrostatic test.....                             | 3    |
| 10. Nameplates and stampings.....                      | 3    |
| 11. Preparation for shipment.....                      | 3    |
