GP 00-16

ETP Third Party Usage Agreement

Group Practice

**BP GROUP
ENGINEERING TECHNICAL PRACTICES**

Foreword

This revision of GP 00-16 modified only the front matter so revisions are not identified.

This Group Practice (GP) should be used as the basis for developing a legal agreement between BP and any third party to govern the usage of BP's Engineering Technical Practices (ETPs) by that third party. It may be used "as-is" except that specific company names and individuals should be defined before execution as indicated by the blue text and the signature page. The BP signature is normally executed by the Head of Engineering Standards and the original is filed within BP's legal department via the BP Group ETP team.
