THIS BRITISH STANDARD, having been approved by the Documentation Standards Committee, was published under the authority of the Executive Board on 22 September, 1971.

SBN: 580 06904 4

In order to keep abreast of progress British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 5000, fully indexed and with a note of the contents of each, will be found in the British Standards Yearbook, which may be purchased from the BSI Sales Department. It may also be consulted in many public libraries and similar institutions.

Attention is drawn to the following British Standards:

UNIVERSAL DECIMAL CLASSIFICATION

ENGLISH FULL EDITION

UDC 355/359 MILITARY ART AND SCIENCE. NATIONAL DEFENCE. ARMED FORCES

FOREWORD

The English version of the Universal Decimal Classification (UDC) is being prepared and published as BS 1000 by the British Standards Institution (BSI) at the original joint request of the British Society for International Bibliography (BSIB) and the Association of Special Libraries and Information Bureaux (ASLIB), now both amalgamated as Aslib. The first English full edition is the fourth international edition authorized by the Fédération Internationale de Documentation (FID) and has the approval of the Education Foundation, Lake Placid Club, New York, proprietors of the Dewey Decimal Classification, from which the UDC derives.

This section is part of the English full edition and existing and prospective users are strongly advised not to use it in isolation but in conjunction with the Abridged English Edition, BS 1000A. The abridged edition refers to many other subjects of interest to users which are not listed in this schedule and it provides a conspectus of the whole scheme, together with an introduction to its use. For further practical information about the principles, application and utilization of the scheme, users should refer to BS 1000C 'Guide to the Universal Decimal Classification (UDC)'. A survey of UDC editions in English and other languages will be found on page 31 of this volume.

Because BSI is making every effort to complete the first English full edition of the UDC by publishing without delay those parts of BS 1000 which are lacking, it is possible that some errors, imperfections and inconsistencies will be found in this section. The Institution would like to emphasize however that every user has the opportunity to submit suggestions for improvements; these will be welcomed and considered by the appropriate bodies. Improvements involving major changes in the order and arrangement of the classification can be introduced only by international agreement (*via* the British Standards Institution) but criticisms of terminology, translation etc., affecting the English edition as such can be dealt with by BSI.

The present publication includes modifications authorized in 'Extensions and Corrections to the UDC' up to and including Series 7, No. 5, dated March 1971. It is emphasized that the UDC is under continuous revision, and that to keep the schedules up to date it is necessary to consult subsequent issues of 'Extensions and Corrections to the UDC', further information on which is given on page 34.

SCOPE

Section 355 covers military art and science, national defence and armed forces in general. 356/359 covers the particular branches of the armed forces and their personnel. Military equipment and engineering are classed under 623 and military administration under 354.

NOTE ON UDC 355/359 MILITARY ART AND SCIENCE. NATIONAL DEFENCE. ARMED FORCES

Basis of the Classification

Not all aspects concerning military sciences are classed under one section. Those on the organization, role and function of the armed forces which do not relate specifically to a particular armed service are classed under 355, e.g. 355.533 'Military marches'.

Questions, however, which concern the particular branches of the forces (infantry, cavalry, artillery, engineers, the air force, the navy) are classed under 356/359, e.g. 357 'Cavalry'.

NOTES ON AUXILIARY SIGNS AND SUBDIVISIONS*

Colon sign of relation. To prevent scattering of information on important recurrent concepts and for general ease of cross reference, maximum use of the colon (rather than auxiliary numbers) is recommended, especially for published abstracts, bibliographies and other documents with a wide circulation. This necessitates a longer notation however, and for libraries or private collections with adequate alphabetical subject indexes, the use of suitable auxiliary numbers, where available, may provide a simpler and more convenient solution.

Common Auxiliaries. The common auxiliary subdivisions of language =, form (0...), place (1/9), time "...", and point of view.00..., given in the tables of auxiliary signs and subdivisions* are all applicable throughout Section 355/359 but should only be used to express concepts not otherwise provided for in the schedule.

The following common auxiliaries of place are of particular relevance to this section.

- (1-07) Areas of military activity in wartime and in postwar periods, including areas involved in civil wars. Theatres of operations etc.
- (1-071) Front
- (1-072) Rear
- (1-073) Defeated territories
- (1-074) Occupied territories
- (1-075) Unoccupied territories. Reminders of partly-occupied countries
- (1-076) Annexed territories
- (1-077) Areas free from general or special military presence or fortification. Areas free from particular kinds of armament. Demilitarized zones
- (1-077.2) Areas free from particular kinds of armament
- (1-077.4) Areas free from particular military installations, fortifications
- (1-077.6) Areas totally free from armaments. Demilitarized zones
- (1-078) Areas under rival, revolutionary government. Areas of insurrection
- (1-62) Alliances. Ententes. Unions
- (1-65) Wartime groupings
- (1-651) Belligerent states
- (1-651.1) Aggressors
- (1-651.2) Objects of aggression
- (1-652) Neutral states

The common auxiliary subdivisions of persons, -05, listed in full at UDC 3/308 are applicable throughout Section 355/359.

Special Auxiliary Subdivisions. The special auxiliary subdivisions .07 'Administrative and governing bodies', and .08 'Public servants. Personnel. Officials' listed at 35 itself are applicable throughout section 355/359.

The special auxiliary subdivisions .01/.02 listed at 355 are applicable throughout Class 355.

EXPLANATION OF OTHER SYMBOLS USED IN THE SCHEDULE

The arrow → is used to mean either 'see' or 'see also' according to the context and form of reference.

The symbol ≅ is used to mean 'subdivide as' and indicates that the number preceding it may be further subdivided in the same way as, and with meanings analogous to the subdivisions of, the number which follows it.

* The phrase 'auxiliary signs and subdivisions' is often abbreviated to 'auxiliaries'. Further information about the common auxiliary signs and subdivisions may be found in:

BS 1000A: 1961 'Universal Decimal Classification: Abridged English Edition'. Contains tables of the auxiliaries and brief notes about their use as well as a general introduction to the UDC and an abridgement of the whole scheme.

BS 1000C: 1963 'Guide to the Universal Decimal Classification (UDC)'. Among other things, gives detailed information about the significance and use of the auxiliaries.
