Cooperating organizations

The Civil Engineering and Building Structures Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following:

Aluminium Federation*	Department of Transport
Association of Consulting Engineers	Federation of Civil Engineering Contractors*
Brick Development Association	Health and Safety Executive*
British Precast Concrete Federation Ltd.	Institution of Civil Engineers*
British Steel Corporation	Institution of Municipal Engineers*
British Steel Industry*	Institution of Public Health Engineers
Cement and Concrete Association	Institution of Structural Engineers*
Concrete Society Limited*	Institution of Water Engineers and
Consumer Standards Advisory Committee	Scientists
of BSI	London Transport Executive
Convention of Scottish Local Authorities	Ministry of Agriculture, Fisheries and Food
County Surveyor's Society	National Federation of Building Trades
Department of the Environment (Building	Employers*
Research Establishment)*	National Water Council
Department of the Environment	Royal Institute of British Architects
(Housing and Construction)	Scottish Development Department
Department of the Environment (PSA)*	Timber Research and Development
Department of the Environment (Water	Association
Engineering Division including Water	Trades Union Congress
Data Unit)	

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the Technical Committee entrusted with the preparation of this British Standard:

Association of Consulting Scientists	Incorporated Association of Architects and
Confederation of British Industry	Surveyors
Construction Health and Safety Group	National Association of Scaffolding
Construction Industry Training Board	Contractors
Electricity Supply Industry in England and	Prefabricated Aluminium Scaffolding
Wales	Manufacturer's Association

This British Standard, having been prepared under the direction of the Civil Engineering and Building Structures Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 May 1982

Foreword

This Part of BS 1139 is one of a series specifying requirements for the design, construction and testing of equipment for use in scaffolding, and other temporary structures. It specifies requirements for steel splitheads and trestles and was previously published as part of section 4 of BS 1139:1964. BS 1139 is now being published in separate Parts as follows and, on publication of Parts 1 to 4, BS 1139:1964 will be withdrawn.

- *Part 1: Specification for tubes for use in scaffolding;*
- *Part 2: Specification for couplers, fittings and accessories for use in tubular scaffolding;¹⁾*
- *Part 3: Specification for prefabricated access and working towers;¹⁾*
- *Part 4: Specification for prefabricated steel splitheads and trestles.*

Further Parts will be added as the need arises.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

¹⁾ In course of preparation.
