Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Plastics and Rubber Standards Policy Committee (PRM/-) to Technical Committee PRM/54, upon which the following bodies were represented:

- British Rubber Manufacturers' Association Ltd.
- Chemical Industries' Association
- Malaysian Rubber Producers' Research Association
- Ministry of Defence
- Rapra Technology Ltd.

This British Standard, having been prepared under the direction of the Plastics and Rubber Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 September 1992

© BSI 02-1999

First published March 1944
Second edition August 1952
Third edition January 1970
Fourth edition May 1978
Fifth edition January 1986
Sixth edition September 1992

The following BSI references relate to the work on this standard:

Foreword

This British Standard has been prepared under the direction of the Plastics and Rubber Standards Policy Committee. It supersedes BS 1154:1986 which is withdrawn.

BS 1154:1992 comprises an editorial revision of BS 1154:1986, in which the presentation has been changed to align the text with other British Standards in the group.

In order that the relationship between compounds designated in previous editions of this standard and those in the present edition can be ascertained, a brief history of the relationship between classifications of compounds in previous editions is given in tabulated form in Annex A.

Other British Standards in this group for rubber compounds are as follows.

BS 1155, *Specification for natural rubber compounds for extrusion.*

BS 2751, *Specification for general purpose acrylonitrile-butadiene rubber compounds.*

BS 2752, *Specification for chloroprene rubber compounds.*

BS 3227, *Specification for butyl rubber compounds (including halobutyl compounds).*

BS 6014, *Specification for ethylene propylene rubber compounds.*

BS 6996, *Specification for mineral oil resistant acrylonitrile-butadiene rubber compounds.*

The following British Standards are also relevant to this standard.

BS 3558, *Glossary of rubber terms.*

BS 3734, *Specification for dimensional tolerances of solid moulded and extruded rubber products.*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
