Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Machine, Engineers and Hand Tools Standards Committee (MTE/-) to Technical Committee MTE/6 upon which the following bodies were represented:

- British Gear Manufacturer’s Association
- Gauge and Tool Makers’ Association
- Machine Tool Industry Research Association
- Milling Cutter Association
- Society of British Aerospace Companies Limited

This British Standard, having been prepared under the direction of the Machine, Engineers and Hand Tools Standards Committee, was published under the authority of the Board of BSI and comes into effect on 30 May 1986

© BSI 12-1999

First published December 1978
First revision May 1986

Foreword

This revision of this Part of BS 122 has been prepared under the direction of the Machine, Engineers and Hand Tools Standards Committee. It supersedes BS 122-5:1978 which is withdrawn.

The dimensions of the various items dealt with in this Part of BS 122 are in agreement with the following International Standards prepared by the International Organization for Standardization (ISO):

ISO 2780:1973, *Milling cutters with tenon drive — Interchangeability dimensions with cutter arbors — Metric series.*

ISO 2940-1:1974, *Milling cutters mounted on centring arbors having a 7/24 taper — Fitting dimensions — Centring arbors.*

ISO 3937:1985, *Cutter arbors with tenon drive — Dimensions.*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
